Data sheet

Tray troll. 2/1 wide rails, defl. castor

The universal GN system trolley.

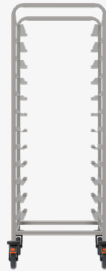

The sturdy rack trolley is suitable for transporting, storing, clearing or carrying food in a GN system - a simple mobile helper. Extra-wide support rails offer improved handling and better grip when loading the trolley.

Thanks to the space-efficient configuration with GN containers and GN thermoplates® in combination with the transport-safe, watertight press-in lid or in a vacuum with the vaculid® lid. Also compatible with any GN trays, GN grilles and GN insert trays for multifunctional use.

Stylish appearance can be customised with coloured formica panelling on 3 sides. Also available on request with antistatic castors to avoid static electricity. For an overall mobile concept, perfect in combination with other mobile products, such as thermoport® made of plastic and stainless steel as well as transport and serving trolleys. A push-through lock on both sides for loading from both sides and optimum safety during transport is available on request.

TECHNICAL SPECIFICATIONS

Tray troll. 2/1 wide rails, defl. castor

TECHNICAL SPECIFICATIONS

Material	stainless steel 1.4301
Dimensions	648 x 739 x 1641 mm
Weight	25 kg
