GN press-in lid 2/8 - watertight

The 100% spill-proof GN lid.

Our number one in the GN lid range – tried and test for the completely leak-tight transport, storage, cooking and regeneration of food in a GN system, ideal for soups and sauces.

For the reliable sealing of GN containers and GN thermoplates®, with the exception of the shallow GN (20 and 40 mm) containers.

The robust and reliable sealing lip of the lid seals the GN system for universal applications – space-saving cooling in the gastropolar® system refrigerator, temperature-resistant transportation in the thermoport® and other mobile appliances, and preparations of a variety of food in the navioven, thermomat®, hybrid kitchen® and combi steamer.

TECHNICAL SPECIFICATIONS

GN press-in lid 2/8 - watertight
