GN domed lid 1/6 for hand vacuum

The spill-proof GN lid suitable vor vacuum-sealing made of Tritan™ Copolyester.

The 100% spill-proof hand vacuum GN dome lid - sustainable vacuuming directly in the stainless steel GN container, ideal for storage and transport.

The transparent vacuum lid, with round sealing plug, for easy release of a natural hand vacuum, available in GN size 1/6.

The spill-proof sealing lip seals the GN system for universal use – perfect presentation with the transparent dome lid, space-efficient cooling in the gastropolar® system refrigerator, temperature-resistant transport in the thermoport® and other mobile units.

TECHNICAL SPECIFICATIONS

GN domed lid 1/6 for hand vacuum
