Data sheet

Tubular dispenser 1x - unheated square

The crockery dispenser.

The tubular dispenser for the interim storage and transport of crockery items in an adjustable dispenser. The spring force can be easily adjusted by hand according to the crockery weight.

As an additional accessory either the corresponding polycarbonate lid or the single-walled stainless steel lid hood. Also extendible with complete all-round impact protection for extra robustness. A plastic-coated inner lining is available. Also with CNS castors on request.
