

Data sheet

Exchange dispenser - WE-QU1/1

More Info

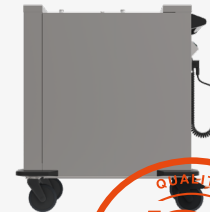

The circulating air-heated universal crockery dispenser.

The exchange dispenser with a powerful, adjustable circulating air heater for the heating, interim storage and transport of any crockery items. With a grid platform that can be sub-divided as required, with 6 fixing rods, for the perfect centring of crockery items, suitable for common plate sizes as well as for crockery with various geometries. The spring force can be easily adjusted by hand according to the crockery weight. Also with integrated overheating protection for perfect safety and including a polycarbonate lid for hygienic protection of the crockery items*.

Extendible with complete all-round impact protection for extra robustness. Also extendible with a practical vessel for storing the fixing rods. Also available on request with antistatic castors to avoid static electricity.

TECHNICAL SPECIFICATIONS

Exchange dispenser - WE-QU1/1

TECHNICAL SPECIFICATIONS
