vaculid[®] lid 1/6 trans- parent

The spill-proof GN lid suitable for vacuum-sealing.

The 100% spill-proof GN vaculid[®] - for a longer food storage life, sustainable vacuuming directly in the stainless steel GN container, ideal for storing and transporting.

The stainless steel lid suitable for vacuum-sealing, for storing and transporting food, available for thermoplates[®] and GN containers with vacuum function without drop handles in GN size 1/6 up to a depth of max. 100mm.

The spill-proof sealing lip seals the GN system for universal use - space-efficient cooling in the gastropolar[®] system refrigerator, temperature-resistant transport in the thermoport[®] and other mobile appliances.

TECHNICAL SPECIFICATIONS

vaculid® lid 1/6 transparent

TECHNICAL SPECIFICATIONS

Dimensions	162 x 176 mm
Material	Tritan™ Copolyester
Weight	0,12 kg
Ambient temperature	-20°C to +95°C
Dishwasher safe	Yes
GN-Norm	GN 1/6
Order number	84 20 01 65

BENEFITS

Tritan™ copolyester, transparent, impact resistant, hygienic, odour-free and tasteless.

Sealing lip made of silicone rubber, food-safe.

No dirt gaps, as the sealing lip is vulcanised around it.

Ensures highest sloshing safety.

Durable sealing even when dropped.

Stable, robust and transparent.
