GN container 2/3 204 perforated

The stainless steel Gastronorm operating system.

The robust, perforated GN container – ideal for use in the sink (e.g. cleaning fruit and vegetables), for cooking in a combi steamer or for insertion in closed GN containers (depending on the version) – in virtually any size and depth, completely compatible in all GN systems and products.

The GN container takes on a function dependent on the process step through the combination with the GN lid range. From highly functional options, such as the watertight press-in lid for completely safe storage and transport through to the flat and press-in lid for hygienic protection. Also available with stackable hinged handles to enable easy and space-saving insertion, removal and carrying.

For universal applications – preparations in waterstation[®] cubic sinks, space-saving cooling in a gastropolar[®] system refrigerator, temperature-resistant transportation in a thermoport[®], as well as presenting and serving in buffet solutions and mobile appliances.

TECHNICAL SPECIFICATIONS GN container 2/3 204 perforated

TECHNICAL SPECIFICATIONS

Dimensions	325 x 352 x 200 mm
Material	stainless steel 1.4301 (CNS)
Sheet metal	2R-sheet
Capacity	15,3 L
Weight	1,344 kg
Ambient temperature	-40°C to +280°C
Dishwasher safe	Yes
Material thickness	0,8 mm
GN-Norm	GN 2/3
GN depth	200 mm
Order number	84 02 01 09

BENEFITS

Stainless steel, completely food-safe, odour-free, antibacterial and hygienic.

With tight corner radii for greater stability and volume.

High-quality stacking shoulder for perfect stacking and air circulation.

A space gain of approx. 30% compared to round containers thanks to the square organisation system.

Optimum insertion in the version with stackable hinged handles.

Strong, robust and dishwasher-safe.
