

Data sheet

thermoport® K 100 unheated - orange

The neutral food transport box.

More Info

The stackable toplayer is used for the safe transport of food in a GN system and for keeping the food hot and cold. For the best food quality and complete transport safety.

Space-efficient configuration with GN containers and GN thermoplates® in combination with the transport-safe, watertight press-in lid or in a vacuum with the vaculid® lid. The interior can be divided into a hot and cold zone thanks to the insulated drawer.

Rieber thermoport® made of plastic and stainless steel can be stacked together and placed on the transport or serving trolleys – for slip-resistant and safe transport.

Retrofittable with a CHECK sensor for seamless and automatic temperature documentation during transport. Clear identification and connection to the CHECK CLOUD are possible with the QR code.

TECHNICAL SPECIFICATIONS

thermoport® K 100 unheated - orange

TECHNICAL SPECIFICATIONS

Material	polypropylene
Dimensions	645 x 370 x 308 mm
Colour	orange
Weight	7,5 kg
Capacity with GN	26 L
Ambient temperature	-20°C to +100°C
Dishwasher safe	until 90 °C

Order number 85 02 03 01

BENEFITS

Lightweight, robust and pore-free plastic, double-walled and tightly welded.

Well insulated, low loss of heat/cold.

Replaceable floor protection rails.

Dishwasher-safe up to +90°C.
