Tubular dispenser 2x - with slits

The universal tubular dispenser

The tubular dispenser for the interim storage and transport of round crockery in two adjustable dispensers (diameter of 190-320 mm). Each easily adjustable by hand by means of the 3 adjusting rods for the desired plate size, as well as the spring force according to the crockery weight.

As an additional accessory either with the corresponding polycarbonate lid hood or the double-walled, lockable stainless steel lid hood. Also extendible with complete all-round impact protection for extra robustness. Also with CNS castors on request.

TECHNICAL SPECIFICATIONS

Tubular dispenser 2x - with slits
