Data sheet

Transp./serv.trolley 1 x thermoport®

The comfortable solution for transporting thermoports®.

The upper shelf provides optimal grip during transportation and food serving thanks to its embossing. The shelf is continuously adjustable from 350 to 700mm. The lower stainless steel shelf can be used as a versatile surface according to needs.

Depending on the size of the transport/distribution trolley and the needs, up to 3 thermoports® can be transported simultaneously. The trolley, in combination with our thermoports®, offers the ideal system for comfortable transportation and facilitated serving of meals.
