## varithek<sup>®</sup> 1/1-gp-3400-SP (1,0)

**The grill plate module.**

The table-top or slide-in module with a controllable and particularly powerful grill plate (full-surface) made of unique SWISS-PLY multi-layer material. The material combines aluminium in the core with conductivity (hot/cold) 10 times better than pure stainless steel, for significant energy savings in use, with the hygienic advantages of stainless steel. The nano-treated surface also guarantees a non-stick effect and optimal, uniform grilling results at a continuously adjustable temperature for gentle warming and frying to grilling. In addition, with a safety temperature limiter.

For use as a table-top variant in combination with an additional splash guard for a clean and hygienic worktop.

All GN 1/1 varithek<sup>®</sup> modules are standardised and can therefore be flexibly combined and interchanged, for precise insertion in the AST/EST system modules or in the varithek<sup>®</sup> GN port.

**TECHNICAL SPECIFICATIONS**  
varithek® 1/1-gp-3400-SP (1,0)

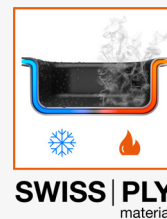

**TECHNICAL SPECIFICATIONS**

	SWISS-PLY multi-layer
Material	material
Dimensions	325 x 620 x 144 mm
Weight	14,6 kg
Connected load	3.400 W
Rated voltage	1N AC 230 V 50/60 Hz
Plug type	Safety switch (type F)
Cable length	1000 mm
Protection class	IPX4
Work surface	SWISS-PLY
Field version	full-surface
<b>Order number</b>	<b>91 03 01 60</b>

**BENEFITS**

- Housing made of stainless steel, with a rustproof, hygienic, high-quality brushed matt finish.
- Grill plate made of SWISS-PLY multi-layer material with a high edge.
- Deep-drawn support rails on the sides for system modules compatibility (AST, EST and GN port).
- Immediate heat transfer and uniform heat distribution.
- Ergonomic recessed grip for safe and easy handling.
- Transport-safe, retractable rotary switch.
- Can be set down thanks to the 4 plastic feet on the bottom of the housing.
- Grease drain in the corner can be sealed with a plug.
- Removable grease collection tray on the underside, for quick emptying.
- Grill plate is easy to clean with a polyamide scraper.
- Splash-proof (IPX4).
