Data sheet

thermoport® K 100 army unheated A green

The neutral food transport box.

The stackable toplayer is used for the safe transport of food in a GN system and for keeping the food hot and cold. For the best food quality and complete transport safety.

Space-efficient configuration with 1 x GN 1/1 container, 200 mm deep, in combination with a matching transport-safe, watertight press-in lid. 2 recesses on the inside of the lid, each with 1x ladle and 1x skimmer.

Rieber thermoport® made of plastic and stainless steel can be stacked together and placed on the transport or serving trolleys – for slip-resistant and safe transport.

TECHNICAL SPECIFICATIONS

thermoport® K 100 army unheated A green
