thermoport® K 500 unheated UNI - black

The unheated food transport box.

The stackable front loader, made of black (RAL 7021) PE, is optimally suited for the safe transport of food in the GN system. The mobile kitchen, for best food quality and absolute transport safety.

Space-efficient loading with GN containers and GN thermoplates®, in various combinations, such as with the watertight plug-in lid, for 100% spill-proof transport. The additional cooling options with insertion of a 1/1 cooling pellet enables temporary cooling of cold food.

Rieber thermoport® made of plastic and stainless steel can be stacked together and placed on the transport or serving trolley - for non-slip and safe transport.
