Data sheet

Transp./serv.trolley 1 x thermoport®

The convenient solution for transporting thermoport®.

The upper shelf is embossed to provide optimum support during transport and when serving food. The shelf is infinitely adjustable from 350 to 700 mm. The lower CNS shelf can be used in a variety of ways, depending on requirements.

Depending on the size of the transport/dispensing trolley and the demand, up to 3 thermoporte® can be transported at the same time. The trolley in combination with our thermoprten® offers the ideal system of comfortable transport and facilitated serving of food.
