Data sheet

catering circle - mise en place

The universal mobile kitchen component.

The versatile catering circle component with a wide range of functions with a cutout in GNsize 1/1 for a configuration with all Rieber GNcontainers and thermoplates®. The use of a Rieber K|POT is also possible for keeping food hot or for cooling food.

Extendible in combination with other catering circle elements. The catering circle connecting shelf is used as a connection between two catering circle components. The lid can be easily turned into a worktop with the optional cutting board. Also extendible with the catering circle heating lamp.

The GN 1/1 cutout enables a configuration with all GN containers and GN thermoplates® in size 1/1.

TECHNICAL SPECIFICATIONS

catering circle - mise en place

TECHNICAL SPECIFICATIONS

Dimensions	574 x 957 mm
Weight	18 kg
Wheel diameter	50 mm
Max. loading capacity	50 kg
