Data sheet

thermoport® K 1000 refrigerated - orange

The actively chilled food transport box.

The stackable frontloader with digital, simple and yet powerful refrigeration on the back, is used for the safe transport of food in a GN system and for keeping the food cold. The mobile kitchen for the best food quality and complete transport safety.

Space-efficient configuration with GN containers and GN thermoplates® in combination with the transport-safe, watertight press-in lid or in a vacuum with the vaculid® lid. For keeping your food perfectly cold, even over several days and, thanks to the low energy requirements it can be connected flexibly everywhere, even to the cigarette lighter socket in a vehicle.

Rieber thermoport® made of plastic and stainless steel can be stacked together and placed on the transport or serving trolleys – for slip-resistant and safe transport.

Retrofittable with a CHECK sensor for seamless and automatic temperature documentation during transport. Clear identification and connection to the CHECK CLOUD are possible with the QR code.

TECHNICAL SPECIFICATIONS

thermoport® K 1000 refrigerated - orange

TECHNICAL SPECIFICATIONS

Dimensions	760 x 435 x 561 mm
Material	polypropylene
Weight	19,6 kg
Connected load	72 W
Rated voltage	1N AC 220-240 V 50/60 Hz
Plug type	Safety switch (Typ F)
Capacity with GN	52 L
Protection class	IPX5
Support rails	12
Refrigerant	R134a
Order number	85 02 04 40

BENEFITS

- Lightweight, robust and pore-free plastic, double-walled and tightly welded.
- Well insulated, low loss of cold.
- Uniform cooling distribution, even when fully loaded.
- Ergonomic, hinged handles and high-quality snap locks.
- Suitable for outdoor use, splash-proof (IPX4).
- Replaceable floor protection rails and stacking corners.
- Removable cooling element without tools, quick and easy cleaning.
- Dishwasher-safe up to +90°C without the cooling element and splash-proof (IPX5).
