## thermoport<sup>®</sup> CNS 3000 circulating heat

The heated food transport trolley.

The mobile frontloader with heatable, precise and powerful circulating air heating (digitally controllable) is used for the safe transport of food in a GN system and for keeping the food hot. The mobile kitchen for the best food quality and complete transport safety.

Space-efficient configuration with GN containers and GN thermoplates<sup>®</sup> in combination with the transport-safe, watertight press-in lid or in a vacuum with the vaculid<sup>®</sup> lid for low-temperature cooking. Additional cooling option is possible with the insertion of GN 1/1 cooling pellets; the cold air is distributed evenly in the interior in pure circulating air mode.

Rieber thermoport<sup>®</sup> made of plastic and stainless steel can be stacked together and placed on the transport or serving trolleys – for slip-resistant and safe transport. In addition, the transport securing device is particularly recommended for the thermoport<sup>®</sup> stainless steel.

Retrofittable with a CHECK sensor for seamless and automatic temperature documentation during transport. Clear identification and connection to the CHECK CLOUD are possible with the QR code.

TECHNICAL SPECIFICATIONS thermoport® CNS 3000 circulating heat

## TECHNICAL SPECIFICATIONS

| Dimensions            | 592 x 769 x 1448 mm          |
|-----------------------|------------------------------|
| Material              | stainless steel 1.4301 (CNS) |
| Weight                | 63 kg                        |
| Connected load        | 763 W                        |
| Rated voltage         | 1N AC 230 V 50/60 Hz         |
| Plug type             | Safety switch (type F)       |
| Cable length          | 1.500 mm                     |
| Heating Area          | max. +95°C                   |
| Capacity with GN      | 130 L                        |
| Protection class      | IPX5                         |
| Hygienic design       | H3                           |
| Support rails         | 30                           |
| Rail distance         | 37 mm                        |
| Impact protection     | 4 corner bumpers             |
| Castor                | 2 fixed-; 2 swivel castors   |
| Wheel diameter        | 125 mm                       |
| Max. loading capacity | 150 kg                       |
| Ambient temperature   | -20°C to +100°C              |
| GN-Norm               | GN 1/1                       |
| Order number          | 85 01 08 08                  |

## BENEFITS

Rustproof, high-quality, hygienic stainless steel (interior and exterior).

Interior tightly welded with seamlessly deep-drawn support rails in hygienic design H3.

Double-walled insulation, low loss of heat/cold.

Uniform heat distribution, even when fully loaded.

Steam slider for moisture regulation.

Mobile with robust, fixable castors and a push handle.

Bumpers for impact protection.

Suitable for outdoor use, splash-proof (IPX4).

Removable door seal/heating system, quick and easy cleaning.

High-pressure cleaner can be used on the interior without the heating system, splash-proof (IPX5).
