GN press-in lid 1/2 - stackable

The stackable GN press-in lid.

The GN plug-in lid - ideal for predominantly dry food or solid food, the resulting steam can escape optimally, secure cover of the GN container. Equipped with 4 studs, it allows for easy destacking and separation, as well as convenient and efficient manual, mechanical and automated handling.

For secure coverage, available with/without handle cut-out, in up to eight different GN sizes, with the exception of depths of 20 and 40mm.

The stackable GN plug-in lid for secure cover is ideal for space-efficient cooling in the gastropolar® system refrigerator, transport in the thermoport® and other mobile devices, as well as for a wide variety of preparations in the navioven, thermomat®, hybrid kitchen® and combi steamers.

The lid is marked on one side with a QR code (laser engraved), an international standard (GS1) for identifying and linking physical products to digital services.
