more
about us

Rieber META cooking – connecting people, food and our catering systems.

Rieber META cooking stands for solutions that are driven by technology and innovation, in order to achieve energy-saving, sustainable and efficient food processes. Digital added value is achieved through our paperless CHECK HACCP documentation, a traceable reusable system eatTAINABLE, as well as with our reliable CONNECT equipment.

We provide the operator with the right information automatically, so that food quality and HACCP can be ensured across the board, simply and safely. Mobile and energy-saving, transparent and digitally traceable in the standardised GN reusable system made of durable and food-safe stainless steel.

01 Rieber CONNECT

Storage: multipolar® CONNECT
Regeneration: K|POT® CONNECT
Program: P2
Duration: 35 min

02 Reusable

Origin: 'Alb' butchers
Located: Hoffmannstr. 44, RT
Contents: Maultaschen (a meat-filled dumpling in Swabian cuisine)
Delivered to: Regenbogen nursery

03 Rieber || Alinox

Proprietor: werkcafé
Type: GN thermoplates@eco
Size: 1/1 | 65 mm | 11 L
Material: SWISSPLY

04 CHECK CLOUD

Temperature: 73°C
HACCP compliant
Hygiene status: easy to clean
For measuring temp: Bluetooth core temperature sensor

QR code on equipment:
Digitalising all products

“The key to the digital world for our hardware is the QR code and sensors that connect our products with the internet, thereby enhancing both food quality and organisation of processes.”

Max Maier, CEO CHECK CLOUD

About Rieber

Rieber

Our goal – to be the leader in technology for the professional catering market in terms of digital innovation – offering standardised system solutions that are networked and organised digitally, and thereby safe, sustainable, energy-saving and long-lasting. Made in Germany since 1925 – a family-run company.

We are an all-round systems provider for digital and sustainable system solutions in the catering sector, bringing together people, food and our catering systems to ensure the best quality and safety at all times. We pay particular attention to using limited resources, such as energy, water and time, in a responsible way. For maximum efficiency across the entire catering operation, whilst keeping operating costs as low as possible and for the benefit of the environment.

As soon as the production and consumption of food are separated in terms of time and location, Rieber offers mobile catering systems that comply with the Gastronom kitchenware and container sizing standards commonly seen in the catering and professional food industry. The GN container operating system forms the physical network across the entire catering operation.

We have innovated this process by means of our mobile and energy-saving equipment, and via our CHECK CLOUD platform. The latter links and organises all food & kitchen information. The safe transportation of food and the ability to track GN reusable container systems, in particular, are part of Rieber's core business.

More details ...

Product systems
Leading provider of refrigeration & canteen catering systems for commercial use

Made in Germany

Digital system solution
Platform for digital control of food safety, hygiene & reuse

SWISS|PLY multilayer material
Multilayer material technology for saving energy and process efficiency

Made in Switzerland

Rieber CONNECT

Easy to operate even with untrained staff

Apart from digital safety, hygiene and organisation of food using the CHECK CLOUD platform, Rieber connects its core products with its own app & cockpit.

Starting with storage – the classic communal refrigerator becomes the digital fridge multipolar® CONNECT, which can quite easily be opened via the app – no need for a key.

As far as preparing and serving food are concerned, specific and adaptable programs can be created and retrieved which are geared perfectly to the food using the KIPOT® CONNECT. This means that a wide variety of dishes, even Cook & Freeze meals, can be regenerated digitally, automatically and reliably. Other transport & food preparation products, including hybrid kitchen and regiostation, can be connected to the system and can be controlled digitally and flexibly.

Rieber CONNECT

Made in Germany

multipolar® CONNECT

Ideal for special dishes & for people with food allergies – cool separately and safely.

Also available as a frozen version.

For 24/7 self-catering

K|POT® CONNECT

H & DELICIOUS

The perfect CONNECT combi, the multipolar® & K|POT® CONNECT, as a sharing solution. Efficient cooling in separate compartments, resulting in successful regeneration. Food in the GN thermoplates® can be taken out directly and easily heated up or regenerated on the K|POT® CONNECT using the app.

Step 1:

Get a meal from multipolar® CONNECT using the app.

Step 2:

Set the thermoplates® to K|POT® CONNECT, select the recipe program and the required time using the app.

Step 3:

The food has regenerated and is ready to serve at the set time.

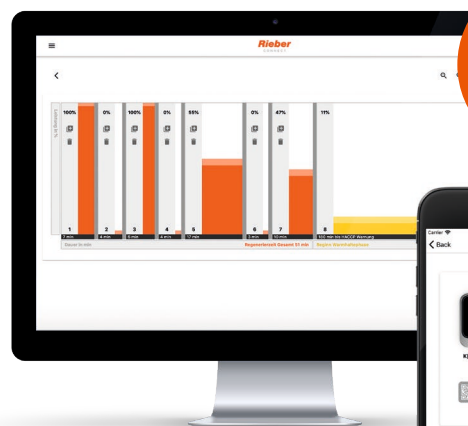

For top-quality food that is a success – guaranteed.

Simple to operate via the app, give the final perfect touch when setting up the program. You can use the cockpit to fine-tune your programs according to your meals & menus.

Simply write your own regenerating programs – for Cook & Chill or Cook & Freeze.

Made in Germany

Rieber CONNECT

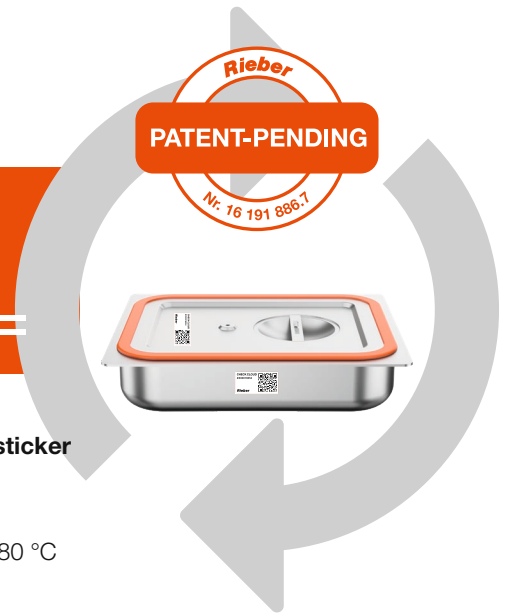

Reusable-System

For healthy and sustainable meals – the only reusable solution that is 100% food-safe

Our digitally organised reusable system, is based on food-safe stainless steel GN containers, the recognised industry standard, in a wide range of sizes and depths, for 'take-away' or delivery services, in single portions or larger volumes. It can easily be retrofitted universally for any application using a QR code label.

The perfect GN-standard reusable solution for the food service sector, butchers, bakers, food distributors or suppliers such as caterers and canteens.

Always know where your GN containers are!

GN system

Retrofittable QR code

Advantages of stainless steel

Top-quality stainless steel 18/10 rustproof | heat-resistant | food-safe | odourless | antibacterial | dishwasher-safe | hygienic | durable | 100% recyclable

- + Easy to retrofit QR code with a sticker
- + Dishwasher-safe and food-safe
- + Temperature-resistant -40 °C to +180 °C
- + Order no. 94 01 01 32

BENEFITS

- + No deposit required, organisation is tracked digitally
- + Savings regarding disposable waste are extrapolated automatically
- + Able to be universally retrofitted to existing or new containers
- + No microplastics enter the food chain from packaging
- + Stainless steel GN containers are absolutely food-safe and hygienic
- + Standardised and stackable as GN-compliant
- + For smaller units, simply scan using the app
- + For larger units, use automated scan cameras and a robotic arm, if needed
- + Central dashboard for overview of reusable containers
- + Containers and thermoport® options can be flexibly combined in many ways, for single portions and multi-portion servings

Track your Plastic-Savings

Made in Germany

Single portions

Small units (up to approx. 900 meals)
Food service sector, butchers, bakers, food distributors

eatTAINABLE

Scan via the smartphone app/customer card

QR code on the container is logged against a customer's QR code, recorded on the customer card, digitally in the wallet or in the app.

Multiple portions

Large units (approx. 1000+ meals)
Caterers, canteens, hospitals, food suppliers

CHECK TRACE

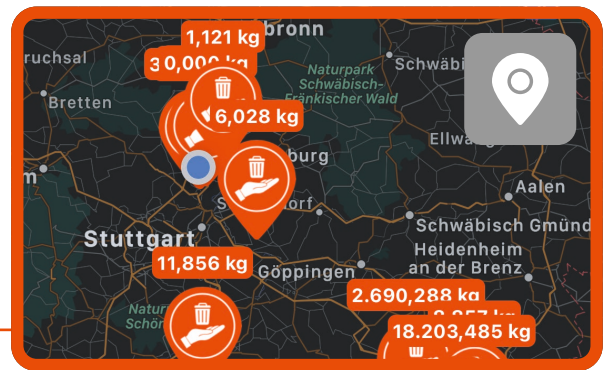

Scan via an automatic scanning unit

Hardware options:

scan serving trolley, scan rack trolley, scan bridge

QR code on the container is logged against the QR code at the location, then transferred to a delivery note or issued from the merchandise management system

For single portions

New: Stainless Steel for your microwave

Order no. 85 02 27 44

For multiple portions

CHECK TRACE

GN reusable process

10
GN empties – QR code scan
 GN container QR codes are automatically booked into the commercial kitchen again using a scanning unit

9
Return transport
 Once the food has been consumed, transport units are collected from customer's premises and returned to the commercial kitchen

8
Food service – CHECK core temperature
 Depending on the set-up, whether it is a served meal or buffet meal, digital HACCP core temperature measurement via CHECK CLOUD

7
Preparation for consumption
 using Rieber's mobile cooking appliances according to the chosen process

- Cook & Chill
- Cook & Serve
- Cook & Freeze

11
Cleaning of containers
 Professional, hygienic cleaning using a commercial flight-type dishwasher

6
Delivery
 Transport containers (GN + thermoport®/rack trolley) are delivered to the customer's premises at the temperature prescribed for the food in question

Track your Plastic-Savings

START 1

GN warehouse

Provision of the GN containers for the production process in the commercial kitchen

Our Reusable-reference

5

Transport – CHECK ambient temperature

Transport containers (GN + thermoport®/rack trolley) are transported safely, insulated, and the ambient temperature is recorded (HACCP) via CHECK CLOUD (HACCP)

Your GN-standard container is organised easily in the digital reusable system and can be retrofitted accordingly with the QR code sticker. This enables you to keep track of the whereabouts of your equipment, offers the best food transport & quality and lets you see how much you save in disposable packaging by using the reusable system.

Act in a sustainable way – for your customers, our environment and your company's CO2 footprint. Whether you are a caterer, canteen, restaurateur, butcher, baker, food distributor, food supplier or in the food sector – let us all eat(sus)TAINABLE.

2

Commercial kitchen – CHECK ambient temperature & core temperature

Food transport in a large container using a combi steamer/tilting container. All HACCP documentation available digitally via the CHECK CLOUD (core temperature in production and ambient temperature in refrigerated warehouses)

3

Distribution – QR code scan

Filling of the GN containers & lid closure

- lading at the food distribution conveyor belt (scanning bridge)
- or using a rack trolley system (scan trolley)

Container QR codes are recorded on customer/delivery note

4

Picking

- in an insulated thermoport® (heated/refrigerated/neutral)
- or in a rack trolley

Connected by CHECK CLOUD for digital HACCP documentation

thermoplastes[®]eco

More details ...

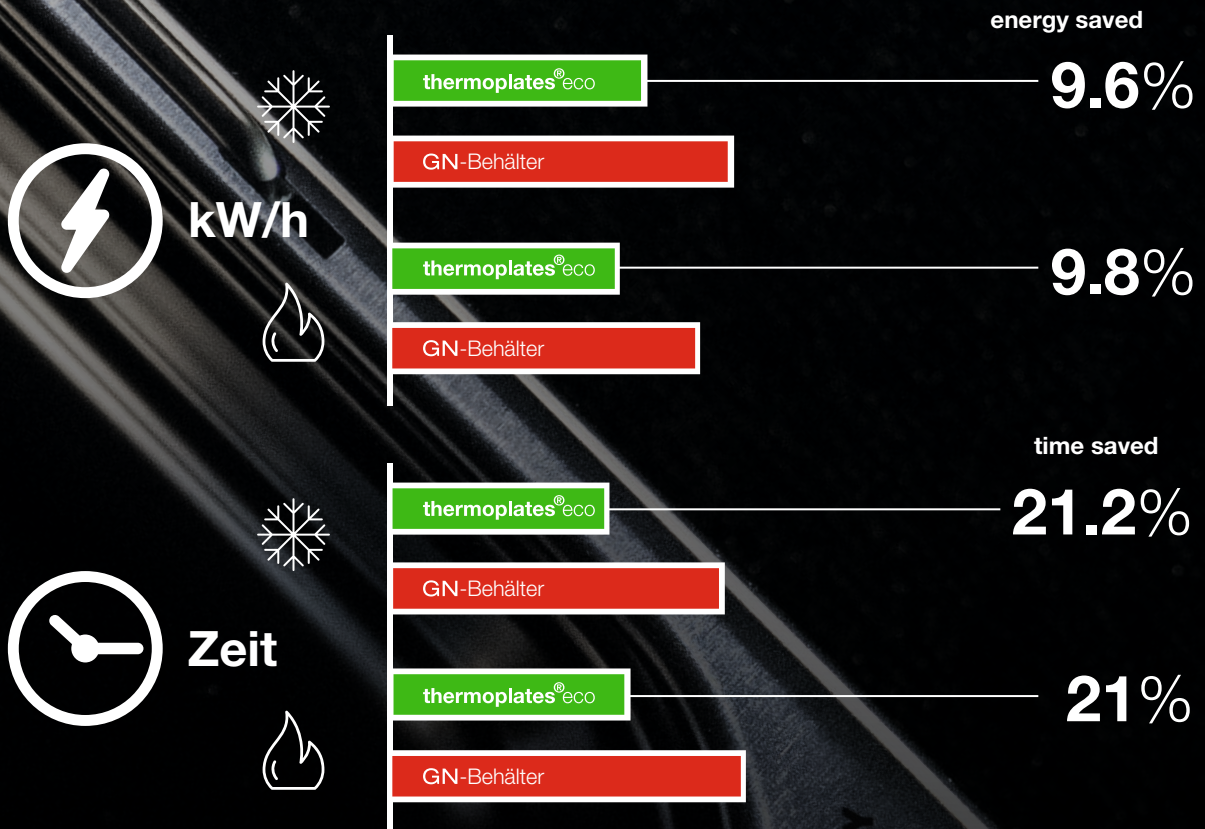

Our new thermoplastes[®]eco is not simply a GN container, it is your energy-saving GN cooking pan.

To help the environment, we have made climate change a priority in every commercial kitchen. After all, even the best innovation is making the current situation better – i.e. our GN standard.

With our new thermoplastes[®]eco, you will be saving energy on a daily basis – up to 30% energy (kWh) across the entire operation, meaning you can prepare, chill and regenerate food quicker & more efficiently, whilst also reducing your CO2 footprint.

Another benefit – you will not have to replace your kitchen, processes or even devices to achieve this result. You simply replace your normal stainless steel GN containers with a new thermoplastes[®]eco cooking pan made of energy-saving SWISS|PLY multilayer material.

Let us compare: 1. Cooling down to 3°C ❄️ & 2. Regenerating to 72°C 🔥
(Mashed potato in GN 1/1 100 mm)

The difference

STAINLESS STEEL – normal GN container

CHECK CLOUD

Say good bye to the HACCP paper mountain

HACCP lists stored chaotically in ring binders for up to four years are a thing of the past, they are clearly visible and can be accessed digitally at any time. All measuring points and documentation, as well as alarms, are now available centrally via a web interface. Organise your operations from anywhere and always have all your data relevant to the processes to hand.

Efficient energy management – is your fridge always 3°C too cold?

Request the CHECK HACCP and uncover further potential savings.

More details ...

CHECK CLOUD

CHECK cockpit

Central web-based data retrieval, configuration and administration (temperature HACCP report, hygiene report, quality index, user and computer management, export, system configuration, definition of task intervals).

Mobile CHECK

Manual temperature measurement with a Bluetooth-enabled core temperature sensor and CHECK app. Simple hygiene and service management using flexibly and individually adjustable checklists and additional image and text functions via the CHECK app.

Order no. 94 01 01 05

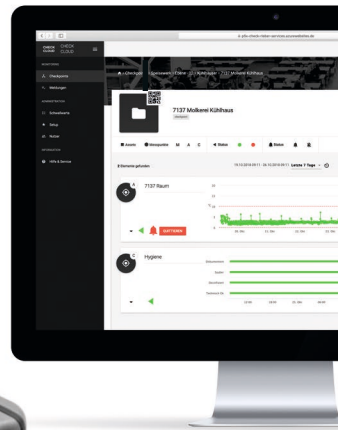

Mobile CHECK

Can also be used universally outside HACCP for a wide variety of monitoring purposes (maintenance, facility management, cleaning, production, plant maintenance).

CHECK app

Intuitive operation and data collection for core temperature measurement and checklists.

QR code

Unique CHECK point identification using a certified food-safe label.

Order no. 94 01 01 32

Auto CHECK

Automatic room temperature recordings using sensors for both stationary and mobile units.

Order no. 94 02 01 38

100%-certified food safety – and less effort required, too.

Auto CHECK
 with an internal sensor (see image) **Order no. 94 02 01 48**
 with an external sensor (with cable) **Order no. 94 02 01 56**

OUR AWARDS

Made in Germany

Gastronorm container system

Rieber advantages

Practical filling height to the stacking shoulder, so that the lid can be closed safely for transport, without it touching the sauce or food in the container. With well-designed corner & base radii for even more capacity.

High and well-defined stacking shoulder for perfect and deep stacking; space-saving storage; more security against tipping and optimum air circulation thanks to the special corner design.

Made in Germany

BENEFITS OF STAINLESS STEEL

Top-quality stainless steel 18/10
rustproof | heat-resistant
food-safe | odourless
antibacterial |
dishwasher-safe
hygienic | durable
100% recyclable

Retrofittable QR code sticker, for digital, reusable organisation of GN containers with eatTAINABLE.

- ▶ Cooking lid | cooking
- ▶ vaculid® | storage
- ▶ Watertight press-in lid | transport
- ▶ Perforated containers | preparation & cooking

EFFECTIVE COOKING RESULT

The even perforations, including in the corner radii, as well as the optimal size and number of holes, achieves an effective cooking result (for perforated container variants, not for inserting).

LID HIGHLIGHTS

Most diverse & innovative range of lids – with our No. 1, the watertight press-in lid, there is no risk that food or sauce will slosh about during transport – guaranteed.

LID SYSTEM & COMPATIBILITY

We have the right lid for every stage of the process, whether for storage, transport, cooking or serving. Simply swap the lids around – can be used on different GN containers/materials.

GNONE® - THE UNSTACKING REVOLUTION

The stacking lugs that protrude on all 4 corners prevent containers from sticking together, making it easy to unstack them. For increased handling efficiency, either manually or automatically. Also for enhanced air circulation when containers are stacked.

COOKING VIA HEAT CONDUCTION

Standard stainless steel GN containers for efficient cooking through heat conduction (on ceramic/induction hobs) by means of the integrated heat-conductive SWISS|PLY multilayer base.

VERSATILE & VARIABLE

The 1/1 basic size of the GN system fits all Rieber products. This means that further subdivisions or containers that are twice the size of the basic one, including GN 2/1, 2/3, 1/2, 1/3, 1/4, 2/8, 2/4, 1/6 and 1/9, will fit too.

STURDY & STABLE CONSTRUCTION

With the closest fitting corner & base radii on the market for maximum shape retention, especially in ovens/combi steamers, plus a higher capacity. The intermediate annealing from a depth of 100 mm also increases stability.

PRACTICAL & EFFICIENT HANDLES

Sturdy, secure and efficient handle designs, including drop handles, make it easy to position, place, take out and carry the containers. Or for stacking folding handles for the easy placement of perforated GN containers in closed GN containers.

TIDY ORGANISATION

Universal operating system with efficient organisation saves up to 30% space compared with round containers or pots.

thermoplastes® GN cooking pan Rieber advantages

Uniform conductivity of the aluminium core, right up to the edge, perfectly tempered everywhere, even with a selective energy supply.

Use for the entire catering process, without the need to swap the container – stick to GN containers for increased handling efficiency.

Multilayer material with an aluminium core, sandwiched between stainless steel layers, combines the benefit of hygienic stainless steel with the thermal advantages of aluminium.

SWISS | PLY material

- ▶ Cooking lid | cooking
- ▶ Buffet lid | serving
- ▶ vaculid® lid | storage
- ▶ Watertight press-in lid | transport
- ▶ Perforated containers | preparation & cooking

LID SYSTEM & COMPATIBILITY

There is a right lid for each step in the process – simply swap them, depending on whether the lid is for storage, transport, cooking or serving. Numerous options from the standard GN lid range – multi-purpose.

SQUARE CORNERS

Like conventional GN containers, the thermoplastes® with square corners are perfect for hanging in all serving elements or in mobile serving systems – without letting the cold or heat escape through the corners.

ROUNDED CORNERS

thermoplastes® C, catering version with rounded corners, provide a perfect & stylish solution for buffets, geared towards our mobile serving station K|POT®. Can now be managed digitally using our Rieber CONNECT app.

STACKING FUNCTION

Version available with premium stacking shoulder for optimum handling, meaning that the thermoplates® can easily be stacked and unstacked, thereby saving space. With conical shape for optimum air circulation.

TEPPANYAKI EFFICIENT GRILLING

Mobile grill plate made of SWISS-PLY material for excellent grilling results on an induction/ceramic hob, plus maximum flexibility in possible uses. The teppanyaki plate can be replaced in seconds and is dishwasher-safe.

ENERGY SAVINGS

Up to 10 x greater conductivity (cold/hot) compared to normal stainless steel, thanks to the aluminium core, for significant energy savings and efficient cooking.

POTENTIAL SAVINGS COOK & CHILL

The stackable thermoplates® guarantees huge potential savings during the Cook & Chill process – more output quantity in the same time period and enormous potential for savings at each step in the process (up to 30% more capacity when chilling and savings of up to 60% in time when heating).

EASY TO CARRY WITH HANDLES

Available with sturdy, fixed handles, meaning there are no problems when inserting, taking out, carrying and placing in the serving station.

DIFFERENT TYPES OF SURFACES

Features either a top-quality non-stick coating (PFO- and PFOA-free) or durable and scratchproof nano treatment of the surface, depending on the intended use*.

*The tough nano non-stick surface for electric, ceramic, induction and gas hobs as well as for combi steamers/ovens. Non-stick coating is not compatible with gas hobs.

vaculid® GN reusable system

Vacuum sealing sustainably without the need for bags

YOUR BENEFITS

- HIGHER QUALITY & LESS WASTE** | The food contained in the stainless steel GN containers or GN thermoplates® cooking pans can be stored and kept for much longer directly in the GN system.
- HEALTHY & SUSTAINABLE** | Furthermore, other cooking methods, such as sous-vide (LTLT) cooking, can be carried out without the risk of microplastics entering the food.
- SAVE TIME & ENERGY** | Cooked perfectly, saving energy at the same time, as the thermoplates® GN pans feature the SWISS|PLY multilayer material that distributes energy evenly to all corners and rims, conducting heat or coldness 10x faster than conventional stainless steel.
- OPTIMUM PROCESS EFFICIENCY & UTILISATION** | Optimum and time-saving production process, as the production can be done flexibly in advance, meaning that staff scheduling can be planned more efficiently.

VACUUM SEALING IN 5 STEPS

Place vaculid® on the container, put pump attachment onto the valve.

Activate the pump; a vacuum is created in the container - sealing it.

Remove the pump, the vaculid® plug maintains the vacuum.

Press the plug slightly.

To take off the lid, simply flick the vaculid® plug.

PROTECTING FOOD – vaculid®

To slowdown the natural deterioration of food, to keep food quality at its best for as long as possible, to prevent cross-contamination of smells and taste and to transport food safely, you need a lid that guarantees this. The vaculid® from Rieber guarantees the above. Thanks to the airtight seal, it ensures that food stays fresher for longer, there is no cross-contamination, safe transportation, low-temperature cooking – in short, food is preserved.

Overview of vaculid® lids for Gastronorm containers and thermoplates®

Depth/size	thermoplates® thermoplates® C coated/non-coated			Gastronorm containers		
	1/2	1/3	1/6	1/2	1/3	1/6
 150	-	-	-	x Material thickness 1 mm	-	-
 100	x	x	x	x	x	x
 65	x	x	x	x	x	x
 40	-	-	-	-	-	-

Sustainable traceability

Easy to retrofit QR code with a sticker for all GN containers. Provides sustainable and digital organisation via the **eatTAINABLE reusable system**, thereby tracking GN containers to the respective customer and facility. Heavy-duty and versatile for use in commercial kitchens because the lids are dishwasher-safe, temperature-resistant from -40 °C to +180 °C and meet accepted food safety standards.

SERVICE PAGE

'HOW TO USE' VIDEO CHANNEL, CLEAN | SPARE PARTS

SUPPORT LEDGES & HYGIENIC INTERIOR

Tightly welded interior with specially made support ledges (prevents GN containers from tipping as they are taken out), no dirt traps & absolutely hygienic.

EASILY DETACHABLE DOORS

The different door types (heated/unheated) can be changed at will thanks to the pivot hinge.

CLEANING |

The heating or cooling elements can be easily removed; dishwasher-safe (up to +90 °C). For easy and hygienic cleaning.

SERVING & CHECK CORE TEMPERATURE MEASUREMENT

Food can be served directly from the portable top loader models. Manual temperature measurement using a Bluetooth-enabled core temperature sensor.

CHECK ROOM TEMPERATURE SENSOR

Automatically transmitting CHECK room temperature sensor on the inside of the door (front loader) / in the lid (top loader) for real-time recording, easy to retrofit.

STACKING CORNERS

Sturdy and replaceable stacking corners on the top, anti-slip stacking of further stainless steel & plastic thermoport® models.

MIX & MATCH

Simply mix & match the stainless steel & plastic thermoport® models, then stack them – completely flexible and mobile transport system.

HYGIENIC CHILLING

The lightweight and powerful cooling element is located at the back of our statically cooled thermoport®. Quick & easy to remove, so that the container is then dishwasher-safe (without the cooling element).

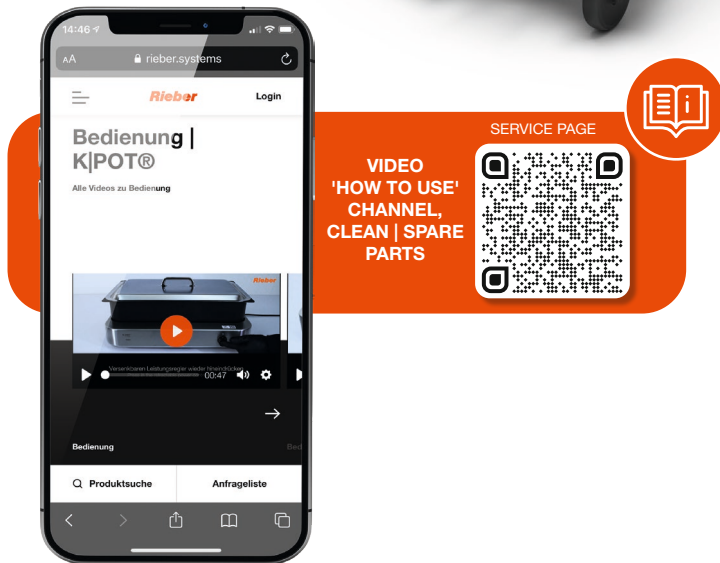

DOUBLE-WALLED INSULATION

The double-walled insulation retains the programmed temperature reliably over long periods of transport, even when the thermoport® is fully loaded. The inner and outer containers are tightly welded and insulated using CFC-free PU foam.

thermoport® premium stainless steel

The benefits of Rieber.

SUPPORT LEDGES & HYGIENIC INTERIOR

Tightly welded interior with specially made deep-drawn support ledges (prevents GN containers from tipping as they are taken out), H3 hygiene-compliant, no dirt traps & absolutely hygienic.

EASILY DETACHABLE DOORS & EASY TO CLEAN

The different door types (heated/unheated) can be changed at will thanks to the pivot hinge. The removable heating element means that the interior can be cleaned thoroughly.

DOOR SEALS

The all-round & food-safe door seal can easily be removed to allow for complete and thorough cleaning.

CHECK ROOM TEMPERATURE SENSOR

The CHECK room temperature sensor attached to the exterior of the door automatically sends information and documents in real-time (retrofitable).

MIX & MATCH

Simply mix & match the stainless steel & plastic thermoport® models, then stack them – completely flexible and mobile transport system.

CORNER GUARDS & CASTORS

Corner guards on all four sides for protection against knocks as well as tough, lockable castors.

SERVING & CHECK CORE TEMPERATURE MEASUREMENT

The thermoport® top loader & front loader models featuring the serving option can be used directly to serve in the GN system. Manual temperature measurement using a Bluetooth-enabled core temperature sensor.

STACKING

Lid features high-quality stacking indentation for non-slip stacking of further stainless steel & plastic thermoport® models.

HYGIENIC CHILLING

Our statically cooled thermoport® models have cooling meander circuits in the side walls, meaning that they are fully hygienic, as no germs can build up on the inside.

Gastronorm-Container

Program Overview

SWISS||PLY

thermoplastes®eco SWISS | PLY - without handles

The stackable & patented cooking container in GN size made of conductive SWISS-PLY multilayer material - for energy-saving preparation (up to 20% kWh savings), through very fast & even heat/cold distribution. Can also be used with direct contact heat (gas, ceramic, induction, electric) for universal cooking. Throughout the process in and on all kitchen appliances, without spilling over when preparing, chilling, regenerating, keeping warm. With robust & scratch-resistant nano surface for adherence and high-quality stacking shoulder for easy unstacking.

- + Save up to 30 % energy, time & costs, due to the eco multilayer material - compared to GN containers made of pure stainless steel

SWISS||PLY

thermoplastes®eco SWISS | PLY - with drop handle

The stackable & patented cooking container in GN size made of conductive SWISS-PLY multilayer material - for energy-saving preparation (up to 20% kWh savings), through very fast & even heat/cold distribution. Can also be used with direct contact heat (gas, ceramic, induction, electric) for universal cooking. Throughout the process in and on all kitchen appliances, without spilling over when preparing, chilling, regenerating, keeping warm. With robust & scratch-resistant nano surface for adherence and high-quality stacking shoulder for easy unstacking.

- + Save up to 30 % energy, time & costs, due to the eco multilayer material - compared to GN containers made of pure stainless steel

Stainless steel GN container without handles

Absolutely hygienic, food safe, odorless, antibacterial, stainless, dishwasher safe, heat, cold & acid resistant. Tight corner radii for stability & volume, high quality stacking shoulder (from 55mm) for optimal air circulation, GNONE® models with 4 corner stacking lugs for easy unstacking (1/1, 2/3, 1/2 from 55-200mm & 1/3 from 65-200mm).

- + GNONE® unique Rieber innovation - for a smooth unstacking process without wedging, also possible automatically, due to our special stacking noses

Stainless steel GN container with retractable handles

Optimal portability, hygienic, food safe, odorless, antibacterial, stainless, dishwasher safe, heat, cold & acid resistant. Tight corner radii for stability & volume, high quality stacking shoulder (from 55mm) for optimal air circulation, GNONE® models with 4 corner stacking lugs for easy unstacking (1/1, 1/2 from 55-200mm & 2/3, 1/3 from 65-200mm).

- + The universal classic for every use - handy & efficient, thanks to the retractable drop handles for easy insertion, insertion, extraction and carrying

Container tracking - Digital returnable system

Our special QR codes, easy to retrofit on all GN containers, for digital tracking & organisation via our reusable system. Robustly usable in commercial kitchens, as dishwasher-safe, food-certified & temperature-resistant.

The reusable QR codes also track their one-way savings | Order no. 94010132

Stainless steel GN container for vacuuming

Without handles in use with vacuum GN lid, for longer food shelf life without disposable bags. Absolutely hygienic, food safe, odorless, antibacterial, stainless, dishwasher safe, heat, cold & acid resistant. Tight corner radii for stability & volume, high quality stacking shoulder (from 55mm) for optimal stackability & air circulation.

- + **Vacuuming without disposable plastic bags, sustainable directly in the food-safe GN container - applicable with all vacuum pumps (hand/chamber/hose pump)**

SWISS|PLY

GN container with multilayer bottom

For transporting, cooking, frying and serving. The SWISS|PLY multilayer base turns the conventional GN container into an energy-efficient cooking pot. Suitable for direct contact heat (Ceran/Induction). Transport temperature of the container in the plastic thermoport® max. +85 °C. Available with drop handles.

- + **Efficient & energy-saving use thanks to the conductive SWISS-PLY multilayer base - on all ceramic/induction hobs with direct contact heat**

Polycarbonate GN container made of transparent plastic

The transparent polycarbonate container, without handles - for storing or presenting cold foods, such as salad, vegetables, fruit, dessert or cheese, as well as for preparation in the kitchen. Recommended cleaning only with suitable means. Hygienically sealable in use with matching polycarbonate lids & other GN lids.

- + **Visually appealing storage, preparation & presentation of cold foods such as salads, vegetables, fruit or dry foods**

Stainless steel GN container perforated not for insertion

Perforated stainless steel container not for insertion - optimal for rinsing, washing, pouring or draining food. Absolutely hygienic, food-safe, odorless, antibacterial, stainless, dishwasher-safe, as well as enormously heat-, cold- and acid-resistant and thus universally applicable.

- + **Ideal for rinsing, washing, pouring off, draining food or dishes and the like - universally applicable, as well as enormously heat, cold and acid resistant**

Gastronorm-Container

Program Overview

Stainless steel GN container perforated for insertion - without handles

Perforated design for insertion into closed GN containers - ideal for cooking, steaming & blanching vegetables or for draining. The perforation allows for shortened cooking time, as well as faster cooling, dishwasher safe.

- + Our continuous perforation also in the corner radii shortens their cooking & cooling time - ideal for cooking, steaming & blanching vegetables & food or for draining

Stainless steel GN container perforated for insertion - with stacking folding handles

Perforated & with stacking folding handle, for easy insertion into closed GN containers, ideal for cooking, steaming & blanching vegetables & for draining, with perforation for shortened cooking time & faster cooling. Absolutely hygienic, food safe, odourless, antibacterial, stainless, dishwasher safe, as well as enormously heat, cold and acid resistant.

- + Our continuous perforation also in the corner radii shortens their cooking & cooling time - ideal for cooking, steaming & blanching vegetables & food or for draining

GN-microwave

GN tray made of stainless steel with which food/side dishes can be heated quickly in a standard microwave oven. Optimum size for individual portioning in GN size 1/6, filling volume 0.9 L. Hygienic, food-safe, odourless, antibacterial, close corner radii for more stability & volume, high-quality stacking shoulder for perfect stackability & air circulation.

- + Our innovation - reusable stainless steel box for quick heating of food in the standard microwave - for single portioning (0.9 L)

GN side dishes

Different food tray variants for single portioning in GN standard format, practical and efficient. Made of high-quality stainless steel - rustproof, heat-resistant, food-safe, odourless, antibacterial, dishwasher-safe, hygienic, very durable and 100% recyclable. Depending on the type of food, in 3-piece / 1-piece version. From 0.3 to 1.4 litres filling volume for side dishes & main meals, can be closed absolutely safe for transport with matching waterproof or vacuumable lids.

- + Flexibly combinable GN food tray system from 0.3 to 1.4 L for single-portion side dishes & main meals - in 3-section / 1-section design

Container tracking - Digital returnable system

Our special QR codes, easy to retrofit on all GN containers, for digital tracking & organisation via our reusable system. Robustly usable in commercial kitchens, as dishwasher-safe, food-certified & temperature-resistant.

The reusable QR codes also track their one-way savings | Order no. 94010132

GN lid for side dishes

Versatile GN lid system with high-quality sealing lips, for absolutely reliable transport without leakage and to protect the food for perfect hygiene, quality and durability. Compatible and interchangeable applicable on all matching GN containers. The number one in transport the waterproof plug-in lid also heat-resistant up to 180 °C or the practical, coloured or transparent dome lid versions with or without manual vacuum function perfect for togo (up to +95 °C).

+ Functional GN lid system, compatible change on the matching GN sizes. Our No. 1 in transport the waterproof plug-in lid, heat-resistant up to 180 °C

thermoplastes®eco SWISS | PLY - without handles

The stackable & patented cooking container in GN size made of conductive SWISS-PLY multilayer material - for energy-saving preparation (up to 20% kWh savings), through very fast & even heat/cold distribution. Can also be used with direct contact heat (gas, ceramic, induction, electric) for universal cooking. Throughout the process in and on all kitchen appliances, without spilling over when preparing, chilling, regenerating, keeping warm. With robust & scratch-resistant nano surface for adherence and high-quality stacking shoulder for easy unstacking.

GN 1/1	1,1	84100104

GN insert tray 1/2 021

The Gastronorm insert tray - with smooth edge made of stainless steel.

GN-Norm	Weight kg	Order no.
GN 1/2	0,6	84100110

GN spice container 1/6 with lid

The GN spice container for insertion in a worktop cutout or spice trolley.

GN-Norm	Weight kg	Order no.
GN 1/6	0,6	84170101

GN spice shaker 1/6

The GN spice shaker - for placement or insertion on a guide shelf made of stainless steel.

GN-Norm	Weight kg	Order no.
GN 1/6	0,5	84160101

GN spice shaker 1/9

The GN spice shaker - for placement or insertion on a guide shelf made of stainless steel.

GN-Norm	Weight kg	Order no.
GN 1/9	0,3	84160102

GN longitudinal bridge piece - 528mm

Longitudinal support for dividing 1/1 bain-maries or refrigeration wells - to accommodate smaller GN sizes.

GN-Norm	Weight kg	Order no.
-	0,2	84190101

GN bridge piece - 325mm

Cross support with a spring for dividing 1/1 bain-maries or refrigeration wells - to accommodate smaller GN sizes.

GN-Norm	Weight kg	Order no.
-	0,1	84190201

GN bridge piece - thermoport® 50K/100K

Cross support without a spring for dividing thermoport® 50/100K - to accommodate smaller GN sizes.

GN-Norm	Weight kg	Order no.
-	0,1	84190202

GN cooking pot thermoplates®

Program Overview

SWISS | PLY

GN cooking pot thermoplates® nano square - without handles

With nano non-stick surface, robust & scratch resistant for direct contact heat on electric/ceran/induction/gas & in combi steamers. Made of 2.6mm SWISS | PLY multilayer material, for energy-efficient cooking due to up to 10x faster & more even heat/cold conductivity compared to pure stainless steel. Universal use in all appliances & on all cooking surfaces. Hygienic, food safe, odorless, antibacterial, stainless & dishwasher safe.

- + Square corners, precise fit in editions, no temperature loss via gaps & can be used in production on electric/ceran/induction/gas & combi ovens

SWISS | PLY

GN cooking pot thermoplates® nano square - with handles

Optimally portable, with nano non-stick surface, robust & scratch-resistant for direct contact heat on electric/ceran/induction/gas & in combi steamers. Made of 2.6mm SWISS | PLY multi-layer material, for energy-efficient cooking due to up to 10x faster & more even heat/cold conductivity, compared to pure stainless steel. Universal use in all appliances & on all cooking surfaces. Hygienic, food safe, odorless, antibacterial, stainless & dishwasher safe.

- + Square corners, precise fit in editions, no temperature loss via gaps & can be used in production on electric/ceran/induction/gas & combi ovens

SWISS | PLY

GN cooking pot thermoplates® nano square - with handles

Optimally portable, with nano non-stick surface, robust & scratch-resistant for direct contact heat on electric/ceran/induction/gas & in combi steamers. Made of 2.6mm SWISS | PLY multi-layer material, for energy-efficient cooking due to up to 10x faster & more even heat/cold conductivity, compared to pure stainless steel. Universal use in all appliances & on all cooking surfaces. Hygienic, food safe, odorless, antibacterial, stainless & dishwasher safe.

- + Square corners, precise fit in editions, no temperature loss via gaps & can be used in production on electric/ceran/induction/gas & combi ovens

SWISS | PLY

thermoplates®eco SWISS | PLY - with drop handle

The stackable & patented cooking container in GN size made of 1.5mm conductive SWISS | PLY multilayer material - for energy-saving preparation (up to 20% kWh savings), through very fast & even heat/cold distribution. Can also be used with direct contact heat (gas, ceramic, induction, electric) for universal cooking. Throughout the process in and on all kitchen appliances, without spilling over when preparing, chilling, regenerating, keeping warm. With robust & scratch-resistant nano surface for adherence and high-quality stacking shoulder for easy unstacking.

- + Energy-saving GN cooking pot for the entire process, without transferring. Save up to 30 % energy, time and costs compared to pure stainless steel GN containers

Your energy-saving cooking pot in GN format

SWISS | PLY multilayer material, for energy-efficient cooking. Up to 10x faster & more even heat/cold conductivity, compared to pure stainless steel. Can be used in all appliances & on all cooking zones. Uniform conductivity even at the edges.

Faster & more efficient - energy-saving & better food quality at the same time

SWISS | PLY

GN cooking pot thermoplates® nano C - rounded corners - without handle

Round corners suitable in application on K|POT®, with nano non-stick surface, robust & scratch resistant for direct contact heat on electric/ceran/induction/gas & in combi steamers. Made of 2.6mm SWISS | PLY multilayer material, for energy-efficient cooking due to up to 10x faster & more even heat/cold conductivity, compared to pure stainless steel. Can be used universally in all appliances & on all cooking zones. Hygienic, food safe, odorless, antibacterial, stainless & dishwasher safe.

- + **Round corners design for a stylish look and use on our K|POT® for an optimal & energy-saving buffet solution**

SWISS | PLY

GN cooking pot thermoplates® nano teppanyaki plate - without handles

With nano non-stick surface, robust & scratch-resistant for direct contact heat on electric/ceramic/induction/gas. Made of 4.00mm SWISS | PLY multilayer material, for pinpoint grilling results on all cooking surfaces. Energy efficient cooking due to up to 10x faster & more even heat/cold conductivity, compared to pure stainless steel. Hygienic, food safe, odorless, antibacterial, stainless & dishwasher safe.

- + **The mobile teppanyaki GN grill plate can be changed in seconds without having to remove the cooking appliance/stove top. Time-saving cleaning as dishwasher-safe**

SWISS | PLY

GN cooking pot thermoplates® nano teppanyaki plate - with handles

Optimally portable, with nano non-stick surface, robust & scratch-resistant for direct contact heat on electric/ceramic/induction/gas. Gastronorm-Lids

Program Overview

Unsere Nr. 1

GN lid watertight stainless steel - with sealing lip & recessed grip

100% slosh-proof transport, with heat-resistant & food-safe sealing lip, surrounding vulcanized, absolutely hygienic without dirt joints. For use in combi steamers, navioven, hybrid kitchen as well as other preparation devices. Robust & dishwasher safe - in use with all GN containers & thermoplates® (not suitable for depths 20, 40mm).

- + Our No. 1, for 100% slosh-proof transport with heat-resistant (up to +180 °C), food-safe sealing lip - ideal for all liquid foods such as soups & sauces

GN lid vaculid®- for vacuuming with sealing lip

The vacuumable GN lid for storing, transporting and cooking. Allows easy & reliable vacuum with chamber/ peristaltic pump, robust & dishwasher safe, protects food in GN reusable system & makes it last longer - in use with stainless steel GN containers/thermoplates® without handles in sizes 1/2, 1/3 & 1/6 up to max. 100mm depth.

- + Vacuuming, without disposable bags, directly in 100 % food-safe stainless steel GN system, suitable for professional hand/chamber/hose pumps

GN plug-in lid Stainless steel

The stackable stainless steel GN plug-in lid, practical, robust & dishwasher-safe, for hygienic covering of food/meals - in use with stainless steel GN containers (not suitable for depths 20, 40mm & thermoplates® in GN size 1/1).

- + Optimal for solid & thick dishes such as potatoes, porridge, pasta or rice

GN flat lid Stainless steel

The GN flat lid made of stainless steel, for hygienic covering of food / dishes - handy with practical recessed grip, stackable & dishwasher safe - in use with all stainless steel GN containers, not suitable for GN-thermoplates®.

- + Optimal air & steam circulation for crispy food (fries/chops etc.)

Lid tracking - Digital returnable system

Our special QR codes, easy to retrofit on all GN lids, for digital tracking & organisation via our digital reusable system. Robustly usable in commercial kitchens, as dishwasher-safe, food-certified & temperature-resistant.

The reusable QR codes also track their one-way savings | Order no. 94010132

GN hinge flat lid Stainless steel

The center hinged GN flat lid, made of stainless steel. Allows minimal temperature loss when opening, as it can only be opened halfway, practical in use and easy to clean, dishwasher safe - in use with all stainless steel GN containers, not suitable for GN-thermoplates®.

+ Optimum energy-efficient output, due to lower temperature loss through half-opening

GN lid with dispenser function & sealing lip

Made of stainless steel with sealing lip & dosing dispenser function through integrated pump attachment (adjustable to 2 GN depths) & swiveling spout. For dispensing ketchup, mustard, mayonnaise, sauces, etc. in GN reusable. Precisely adjustable up to max. 40 g per pumping operation - in use compatible with GN containers in sizes 1/2 & 1/3, in depths 150 & 200mm.

+ With practical pump attachment for dispensing ketchup, mustard, sauces etc., directly from 100 % food-safe stainless steel GN containers

GN flat lid made of polycarbonate

The transparent GN flat lid made of polycarbonate - optimal for hygienic storage or presentation of cold foods, such as salad, vegetables/fruit. For cleaning polycarbonate use only suitable means (not acid resistant) - in application with stainless steel/polycarbonate GN containers (not suitable for GN containers with depths 20, 40mm).

+ Ideal for cold dishes such as salads, vegetables and fruit

GN lid Dome lid for hand vacuum

The transparent GN dome lid made of Tritan™ copolyester with black circumferential waterproof sealing lip and vent plug, for easy opening of a natural hand vacuum. For airtight & watertight storage, transport & attractive presentation of food in a GN 1/6 tray (available in various depths), made of hygienic & food-safe stainless steel - perfect for togo food.

+ Absolutely watertight and with the practical vent plug, the natural hand vacuum can be easily opened for airtight & watertight storage & transport

Gastronorm-Lids

Program Overview

GN cooking lid made of stainless steel - with fixed handle

The cooking GN lid made of stainless steel, optimal in handling, centered with firm handle and rounded corners. Flexible use for preparing food, optimally suitable in use with cooking container thermoplates® C on the K|POT®.

+ Exact fit on thermoplates® with round/cornered corners, as well as GN containers

GN buffet lid made of stainless steel - with automatic lowering function

The serving GN lid made of stainless steel, for hygienic protection of hot/cold food in GN thermoplates® - with automatic lowering function for optimal handling at the buffet - perfectly suitable in application with cooking container thermoplates® C on the K|POT®.

+ For self-service & serving and for regenerating & presenting hot and cold food. With automatic lowering function for optimal handling at the buffet

GN buffet lid made of polycarbonate - with automatic lowering function

The transparent serving GN lid made of polycarbonate, for hygienic protection & presentation of cold foods in GN thermoplates® - with automatic lowering function for optimal handling at the buffet - perfectly suitable in application with thermoplates® C on the K|POT® cool/passive.

+ For self-service & serving and for presenting cold dishes. With automatic lowering function for optimal handling at the buffet

Lid tracking - Digital returnable system

Our special QR codes, easy to retrofit on all GN lids, for digital tracking & organisation via our digital reusable system. Robustly usable in commercial kitchens, as dishwasher-safe, food-certified & temperature-resistant.

The reusable QR codes also track their one-way savings | Order no. 94010132

GN lid watertight stainless steel - with sealing lip & recessed grip

100% slosh-proof transport, with heat-resistant & food-safe sealing lip, surrounding vulcanized, absolutely hygienic without dirt joints. For use in combi steamers, navioven, hybrid kitchen as well as other preparation devices. Robust & dishwasher safe - in use with all GN containers & thermoplates® (not suitable for depths 20, 40mm).

thermoport® Premium stainless steel

Program Overview

thermoport® stainless steel Top loader portable - heated

Heated food transport box with insulated lid, self-regulating silicone foil heating fix +86°C max. +95°C, only wet heatable. Hygienic double-walled & tightly welded. For stacking GN containers/thermoplates® with watertight plug-in lids, for reliable & insulated food transport. All thermoport® models can be stacked in combination with each other. Rated voltage 1N AC 230V 50/60Hz.

- + Can be used directly as a scoop dispenser via the removable thermoport® lid. Transport & dispensing in one. Max. Capacity with GN: Size 100: 26L

thermoport® stainless steel Front loader mobile - unheated

Unheated food transport trolleys with insulated door, interior hygienic design H3. Hygienic double-walled & tightly welded. For insertion of GN containers/thermoplates® with watertight plug-in lid, for reliable & insulated food transport. All thermoport® models, plastic & stainless steel are stackable in combination. Optimally mobile with 2 fixed & 1 swivel stop castors, safely protected by 4 bumper corners.

- + Safe cold & hot holding with matching GN cooling/heating pellets. Max. Capacity with GN: Size 1000: 38L | 1400: 63.7L | 1600: 70.4L | 2000: 89.7L | 3000: 130L

thermoport® stainless steel Front loader mobile - convection heated

Circulating air heated food transport box with insulated door, digitally adjustable circulating air heating max. +100°C. Interior hygienic design H3. Hygienic double-walled & tightly welded. For insertion of GN containers/thermoplates® with watertight plug-in lid. All thermoport® plastic & stainless steel can be stacked together. Rated voltage 1N AC 230V 50/60Hz. Optimally mobile with 2 fixed & 1 swivel stop castors, safely protected by 4 bumper corners.

- + Precise to the degree, powerful digital convection heating, up to max. +100 °C. Max. Capacity with GN: Size 1000: 38L | 1400: 63.7L | 1600: 70.4L | 2000: 89.7L | 3000: 130L

hybrid kitchen - models 140 °C with lid | 200 °C thermoport® canteen

The special hybrid door with separately digitally controllable heaters & fans, max. 140°C. Functional programmes: Cold & hot holding simultaneously/separately, regeneration, cooking, with individually adjustable time, humidification, setpoint chamber/core temperature. Removable lid, with stacking embossing & seal. Interior H2 tightly welded, jointless support beads. Rated voltage 1N AC 230V 50Hz. Optimum mobility with 2 fixed & 1 swivel castors, safely protected by 4 bumper corners.

- + Auto prog. function can be stored for a 100% guarantee of success. Usable w/o high volt. curr. (230V), structural measures, extractor hood, water connections, etc.

Digital HACCP documentation - safe & time-saving

Digital documentation with our CHECK HACCP system. Automatic room temperature recording in the thermoport®, via retrofittable sensors. Paper- & seamless HACCP during transport, in real time, viewable from anywhere in your dashboard.

Automatic room temp. sensor - can be retrofitted any time - order no. 94020138

thermoport® stainless steel Front loader portable - unheated

Unheated food transport box with insulated door, interior hygienic design H3. Hygienic double-walled & tightly welded. For inserting GN containers/thermoplates® with watertight plug-in lid, for reliable & insulated food transport. All thermoport® models, plastic & stainless steel are stackable in combination.

+ Max. Capacity with GN: Size 1000: 38L

thermoport® stainless steel Front loader portable - convection heated

Circulating-air heated food transport box with insulated door, digitally adjustable circulating-air heating max. +90°C. Interior hygienic design H3. Hygienic double-walled & tightly welded. For inserting GN containers/thermoplates® with watertight plug-in lid. All thermoport® plastic & stainless steel can be stacked together. Rated voltage 1N AC 230V 50/60Hz.

+ Max. Capacity with GN: Size 1000: 38L

thermoport® stainless steel Front loader mobile - cooled

Refrigerated food transport trolley with insulated door and digitally controllable refrigerating machine, interior hygienic design H3. Double-walled & tightly welded. For inserting GN containers/thermoplates® with watertight plug-in lid. Thermoport® plastic & stainless steel can be stacked together. Rated voltage 1N AC 230V 50/60Hz. Optimum mobility with 2 fixed & 1 swivel castors, safely protected by 4 bumper corners.

+ Hygienic, as cooling meanders in the side walls, no germs in the interior. Max. Capacity with GN: Size 1000: 38L | 1600: 70.4L | 2000: 89.7L | 3000: 130L

thermoport® stainless steel Front loader mobile - hybrid

Hybrid food transport trolley with 2 insulated compartments, digital convection heating at the top, cooling compartment (active/passive) at the bottom. Interior hygienic design H3. Hygienic double-walled & tightly welded. For inserting GN containers/thermoplates® with watertight plug-in lid. Thermoport® plastic & stainless steel can be stacked together. Rated voltage 1N AC 230V 50/60Hz. Optimum mobility with 2 fixed & 1 swivel castors, safely protected by 4 bumper corners.

+ Auto prog. function can be stored for a 100% guarantee of success. Usable w/o high volt. curr. (230V), structural measures, extractor hood, water connections, etc.

hybrid kitchen & thermoport® canteen Accessories

Suitable accessories for all hybrid kitchen models - for safe and shock-protected transport, the transport box made of sturdy wood for retracting the hybrid kitchen or the stainless steel GN cooling or heating pellets for additional passive cold / hot holding for sliding onto the support ledges.

More info

Protective screen front thermoport. canteen

Accessory set for the thermoport® canteen consisting of an acrylic glass panel with glass mounts and hinges. Easy to install at the existing fold-out shelf mounting points. For the safe serving of food.

Weight	Order no.
kg 9,2	85011718

Door thermoport® canteen (100°C)

A perfect option for the thermoport® canteen is the thermoport® canteen 100°C heatable door with active circulating air heating. Suitable for actively keeping food hot. Easy to mount. Additional cooling option is possible with the insertion of GN 1/1 cooling pellets; the cold air is distributed evenly in the interior in pure circulating air mode.

Weight	Order no.
kg 8,7	85011720

Door thermoport® canteen (hybrid 140°C)

A perfect option for the thermoport® canteen is the heatable thermoport® canteen Hybrid 140°C door. For mobile and fully functional regeneration/preparation, with 2 separate, digitally controllable circulating air heating systems, a choice of programs for keeping food cold and hot at the same time or separately, as well as for regenerating and cooking food. In addition, a refrigeration function through the pure circulating air program and with the insertion of GN 1/1 cooling pellets.

thermoport® Plastic

Program Overview

thermoport® plastic Top loader portable - unheated / passively cooled

Unheated food transport box with lid, made of sturdy, lightweight & non-porous plastic. Hygienic double-walled & tightly welded, dishwasher-safe (up to +90°C). For stacking GN containers/thermoplates® with watertight plug-in lid, for reliable & insulated food transport. All thermoport® models, plastic & stainless steel can be stacked in combination. Passively cooled version with GN 1/1 cooling plate made of plastic integrated in the lid.

- + Easy to clean, dishwasher safe up to +90 °C. Max. Capacity with GN: Size 50: 11, 7L | 100: 26L

thermoport® plastic Top loader portable - heated

Heated food transport box with lid & self-regulating PTC heating fix +86°C max. +95°C, wet & dry heatable, hygienic double-walled & seal-welded. For stacking GN containers/thermoplates® with watertight plug-in lids, for reliable & insulated food transport. All thermoport® models can be stacked in combination with each other. Rated voltage 1N AC 230V 50/60Hz.

- + Easy to clean, dishwasher safe up to +90 °C without heating. Max. Capacity with GN: Size 50: 11, 7L | 100: 26L

thermoport® plastic Top loader portable - unheated with hybrid function

Unheated food transport box with lid & passive cold/warm area separable by Isosteg. Made of sturdy, lightweight & non-porous plastic. Hygienically double-walled & tightly welded. For space-efficient stacking of GN containers/thermoplates® with watertight plug-in lid. All thermoport® models can be stacked in combination with each other.

- + Separable interior in hot & cold, efficient GN stacking in various sizes/depths. Sizes/depths. Dishwasher safe up to +90 °C. Max. Max. capacity with GN: Size 100: 26L

thermoport® plastic Front loader portable - unheated

Unheated food transport box with door, made of sturdy, lightweight & non-porous plastic. Hygienically double-walled & tightly welded. For inserting GN containers/thermoplates® with watertight plug-in lid, for reliable & insulated food transport. All thermoport® models, plastic & stainless steel can be stacked in combination.

- + Easy to clean, dishwasher safe up to +90 °C. Max. Capacity with GN: Size 230: 26L | 500: 26L | 600: 33L | 1000: 52L | 6000: 104L

Digital HACCP documentation - safe & time-saving

Digital documentation with our CHECK HACCP system. Automatic room temperature recording in the thermoport®, via retrofittable sensors. Paper- & seamless HACCP during transport, in real time, viewable from anywhere in your dashboard.

Automatic room temp. sensor - can be retrofitted any time - order no. 94020138

thermoport® plastic Front loader portable - convection heated

Circulating-air heated food transport box with door, digital temperature setting accurate to the degree from +20°C to +85°C. Hygienic double-walled & tightly welded, dishwasher-safe without heating (up to +90°C). For inserting GN containers/thermoplates® with watertight plug-in lid. All thermoport® synthetic & stainless steel containers & stainless steel can be stacked in combination. Rated voltage 1N AC 230V 50/60Hz.

**+ Easy cleaning, dishwasher safe up to +90 °C without heating. Max. Capacity with GN:
Size 600: 33L | 1000: 52L | 6000: 104L**

thermoport® plastic Top loader portable - unheated / passively cooled

Single portion thermoport® plastic

Program Overview

thermoport® 10 - plastic for 1 x menu with soup

Unheated insulation box, double-walled & tightly welded, dishwasher-safe up to +90 °C. Set with 1x 3-piece food tray latent heat storage, 1/6 32mm side dish, each incl. matching lid. For safe transport & keeping single-serving meals warm/cold. Models of 10 (10, 10D, 10KW) are standardised & the food/side dish trays can be used in a compatible way.

- + Simple embossing in the lid - for 1 x menu (3 or 1 part) with soup. Dishwasher safe up to +90 °C

thermoport® 10 D - plastic for 1 x menu and 2 x side dishes

Unheated insulation box, double-walled & tightly welded, dishwasher-safe up to +90 °C. Set with 1x 3-piece food tray latent heat storage, 2x 1/6 32mm side dish, each incl. matching lid. For safe transport & keeping single-serving meals warm/cold. Models of 10 (10, 10D, 10KW) are standardised & the food/supplement trays can be used in a compatible way.

- + Double embossing in the lid - for 1 x menu (3- or 1-part) and 2 x side dishes. Dishwasher safe up to +90 °C

thermoport® 10 KW - plastic with cold comp. & w/o cooling pellet - for food, side dish & cold dish

Insulation box with extra cold compartment, double-walled & tightly welded, dishwasher-safe up to +90 °C. Set equipment: 1x 3-piece food tray latent heat sp., 1x 1/6 22mm & 2x 1/9 22mm side dish tray, each incl. matching lid & 1x 1/6 cooling pellet. For transporting cold/hot meals. Models of 10 (10, 10D, 10KW) are standardised & the food/supplement trays can be used in a compatible way.

- + Additional separate cold compartment in the lid on top - for 1 x meal and 1 x cold dish (dessert/salad) with matching food trays. Dishwasher-safe up to +90 °C

thermoport® 20 - Plastic

Unheated insulation box, completely equipped with porcelain system dishes: 1x square menu bowl + heat pellet, 1x round soup bowl and 2x square side dish, each incl. matching plastic lid. Double-walled & tightly welded, dishwasher-safe up to +90°C. Weight loaded approx. 5 kg

- + With porcelain system dishes: 1x square menu bowl + heat pellet, 1x round soup bowl & 2x square side dishes, each + lid. Dishwasher safe up to +90°C

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with the CHECK HACCP system. App temperature measurement with Bluetooth-capable core temperature sensor. From goods receipt, production to output. Paper & complete HACCP in real time, visible everywhere in your dashboard.

Core temperature sensor - can be retrofitted at any time - order no. 94 01 01 05

thermoport® 21 - plastic with menu plate 1 or 2 pcs, heat pellet, 1x soup, 2x side dish

Unheated insulation box, completely equipped with porcelain system dishes: 1x round plate 1tlg (Ø230mm) + heat pellet, 1x round soup bowl and 2x square side dishes (small&large), each incl. matching plastic lid. Double-walled & tightly welded, dishwasher-safe up to +90°C. Weight when loaded approx. 5 kg.

+ With porcelain system dishes: 1x round plate 1tlg (Ø230mm) + heat pellet, 1x round soup bowl & 2x square side dishes, each with lid. Dishwasher safe up to +90°C

thermoport® 10 - plastic for 1 x menu with soup

Unheated insulation box, double-walled & tightly welded, dishwasher-safe up to +90 °C. Set with 1x 3-piece food tray latent heat storage, 1/6 32mm side dish, each incl. matching lid. For safe transport & keeping single-serving meals warm/cold. Models of 10 (10, 10D, 10KW) are standardised & the food/side dish trays can be used in a compatible way.

Beverage containers - thermi

Program Overview

Beverage container - thermi stainless steel - heated

Beverage container made of hygienic stainless steel, with fixed heater 230V/80W, rear connection cable 2m. Double-walled insulated, deep-drawn inside & seamlessly welded. Outside 2 tension locks & 1 carrying handle, silicone seal, vent plug & shock-proof, easy-to-clean drain cock. For transporting 7-24 litres of liquid depending on model.

Beverage container - thermi stainless steel - unheated

Beverage container made of hygienic stainless steel, double-walled insulated, inner container deep-drawn & seamlessly welded, suitable for direct filling. Outside with 2 tension locks & 1 carrying handle, silicone seal, vent plug & shock-proof, easy-to-clean drain tap. For transporting 7-24 litres of liquid depending on model.

+ With deep-drawn & seamlessly welded stainless steel inner container, for direct filling. Very heat-resistant, food-safe, odourless & antibacterial

Beverage container - thermi plastic - unheated

Beverage container made of impact-resistant germ-inhibiting polypropylene, suitable for direct filling, dishwasher safe up to +90°C. Double-walled insulated, with/without drip tray (stackable), integrated drain tap with bayonet lock, easy to carry with 2 U-clips & 3 carrying handles. For 10-40 litres of liquid per model, usable -20°C to +100°C.

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with the CHECK HACCP system. App temperature measurement with Bluetooth-capable core temperature sensor. From goods receipt, production to output. Paper & complete HACCP in real time, visible everywhere in your dashboard.

Core temperature sensor - can be retrofitted at any time - order no. 94 01 01 05

GN banquet trolley

Program Overview

GN banquet trolley stainless steel heated - digital with humidification

Banquet trolley, digital convection heating +30°C to +100°C, wet/dry heatable. With base tray, seamless deep-drawn support ledges (115 mm ledge spacing with tip safety) for GN grates/containers (plate Ø max. 310 mm). All-round roof gallery, double-walled insulation, push handle on front. Safe transport, keeping warm ready to serve, simultaneous serving. Rated voltage 1N AC 230V 50/60Hz.

Central control & separate humidification controller. Wet & dry heatable, dry heated significant energy saving & less cleaning effort

GN banquet trolley Stainless steel heated - analog without humidification

Banquet trolley, analogue convection heating +30°C to +90°C. Cabinet compartment with seamless deep-drawn support ledges (115mm ledge spacing with tip safety) for GN grates/containers (plate Ø max. 310mm). Double-walled insulation, low heat loss, push handle on front. For safe transport, keeping warm ready to serve & simultaneous serving. Rated voltage 1N AC 230V 50/60Hz.

GN Banquet Trolley Stainless steel cooled - digital

Banquet trolley, digital convection cooling -12°C to +8°C, 580W at -10°C VT. Seamless deep-drawn support ledges, with tip safety for GN grates/containers (plate Ø max. 310mm). All-round roof gallery, double-walled insulation, push handle on front. Safe transport, ready-to-serve cold holding, simultaneous serving. Rated voltage 1N AC 230V 50/60Hz.

Precise & powerful compressor cooling & circulating air fan. Reliable cooling by evaporator above & cooling machine with condensation evaporation below

GN Banquet Trolley plastic heated and/or unheated - analog/digital

2x banquet transport box, firmly connected on mounted castors, in the combinations heated max. +90°C and/or unheated, with analogue or digitally controllable convection heating from +20°C to max.+85°C. With seamless deep-drawn support ledges for GN grates/containers. Double-walled & tightly welded. For safe transport, ready-to-serve keeping warm & simultaneous serving. Rated voltage 1N AC 230V 50/60Hz.

Digital HACCP documentation - safe & time-saving

Digital documentation with our CHECK HACCP system. Automatic room temperature recording in the banquet trolley, via retrofittable sensors. Paper & complete HACCP during transport, in real time, visible everywhere in your dashboard.

Automatic room temp. sensor - can be retrofitted any time - order no. 94020138

K|POT® the mobile kitchen & buffet solution

Program Overview

K|POT® passive with embossing for GN cooling / heating pellet

Mobile & stylish buffet dispenser without electricity, with bulge in the base of the housing, for heating/cooling pellets GN 1/2 for passively keeping ready-to-eat food warm/cold. In use with thermoplates® C with rounded corners, made of energy-efficient SWISS-PLY multilayer material & matching GN cooking/buffet lid. Available in 1/1 or 2/3 GN size, in black/stainless steel.

- + **Completely without electricity, can be used reliably everywhere, for passive keeping warm/cold**

K|POT® with GN Ceran heating panel - for keeping warm

Mobile temperature-precise heat-retaining dispenser, with infinitely variable & energy-saving ceramic hob (0-800W), recessed for safe operation. Transport-safe, retractable rotary switch. In use with cooking container thermoplates® C rounded corners & matching GN cooking/buffet lid. Available in 1/1 GN size in black/stainless steel, also as built-in K|POT®. Rated voltage 1N AC 230V 50Hz.

- + **Energy-efficient keeping warm with the infinitely variable ceramic hob (0-800W) and the GN-thermoplates®, for a perfect buffet solution**

K|POT® with GN ceramic hob - for cooking

Mobile kitchen, with electronically controlled ceramic hob, recessed for safe operation. Retractable rotary switch for 6 regeneration, 3 keep-warm, 3 cooking programmes. In use with cooking container thermoplates® C rounded corners & matching GN cooking/buffet lid. Available 1-2-zone, in 1/1 or 2/3 GN size, in black/stainless steel, also as built-in K|POT®. Rated voltage 1N AC 230V 50Hz.

- + **Energy-efficient ceramic hob controllable via rotary control with 6 regeneration, 3 keep-warm, 3 cooking programmes. In use with GN cooking pot thermoplates®**

K|POT® CONNECT with app control

Digital and app-controlled catering kitchen, freely programmable, infinitely variable energy-saving ceramic hob (0-2200W). Create and manage individual K|POT programmes for Cook & Chill and now also for Cook & Freeze dishes with the Rieber CONNECT Dashboard. 1- and 2-zone, in 1/1 or 2x 1/2 GN size, black and in stainless steel. Rated voltage 1N AC 230V 50Hz.

- + **100% guarantee of success without specialist staff, predefined self-created programmes can be called up safely via the app or transferred directly**

Digital HACCP documentation - safe & time-saving

Digital documentation with the CHECK HACCP system. App temperature measurement with Bluetooth-capable core temperature sensor. From receiving, production to serving. Paper & complete HACCP, in real time, visible everywhere in your dashboard.

Core temperature sensor - can be retrofitted at any time - order no. 94 01 01 05

K|POT® with GN induction hob - for cooking

Mobile kitchen, with powerful 2-zone induction hob, recessed for safe operation. Retractable rotary switch for 1 melting, 2 keeping warm, 6 cooking programmes. In use with cooking container thermoplates® C rounded corners & matching GN cooking/buffet lid. Available in 1/1 or 2/3 GN size, in black/stainless steel, also as built-in K|POT®. Rated voltage 1N AC 230V 50Hz.

- + **Powerful 2-zone induction hob, with 1 melting, 2 keeping warm, 6 cooking programmes. Energy-efficient & multifunctional cooking, frying and grilling**

SWISS|PLY

K|POT® cooled with GN SWISS-PLY- multilayer sheet

Mobile cold serving, with controllable, energy-saving & full-surface cooling plate made of SWISS-PLY multilayer material for cooling with very short response time. In use with cooking container thermoplates® C rounded corners & matching GN cooking/buffet lid. Available in 1/1, in black/stainless steel. Rated voltage 1N AC 230V 50Hz.

- + **Actively cooled SWISS|PLY multilayer panel, for perfect and energy-efficient cooling, very quickly ready for use**

K|POT® built-in for cover cut-out 582 x 378 mm

The K|POT® built-in variants, in ceramic heat-retaining, ceramic or induction hob, field dimensions: approx. 607x394x57mm. Suitable for cut-outs: Cover approx. 582x378mm, control approx. 388x152x100mm, front panel approx. 322x85mm. In use with thermoplates® C with rounded corners & matching GN cooking/buffet lid. Available in 1/1 Gastronorm size in stainless steel. Rated voltage 1N AC 230V 50Hz.

- + **Optimal for stationary use at the buffet or in dispensing solutions**

K|POT® passive with embossing for GN cooling / heating pellet

Mobile & stylish buffet dispenser without electricity, with bulge in the base of the housing, for heating/cooling pellets GN 1/2 for passively keeping ready-to-eat food warm/cold. In use with thermoplates® C with rounded corners, made of energy-efficient SWISS-PLY multilayer material & matching GN cooking/buffet lid. Available in 1/1 or 2/3 GN size, in black/stainless steel.

navioven & thermomat®

Program Overview

navioven mobile table-top unit with digital circulating air heating

Table-top oven with digital control & core temperature sensor for various programmes. programmes: Baking, cooking, core temperature cooking, braising, regeneration from +20°C to +240°C. Door made of insulating glass, for insight into illuminated interior. 7 pairs of rails, removable via side shelf, for inserting GN system. Bottom runners for stacking on thermoport®. Rated voltage 1N AC 230V 50/60Hz.

Auto prog. function can be stored for a 100% guarantee of success. Usable w/o high volt. curr. (230V), structural measures, extractor hood, water connections, etc.

thermomat® made of stainless steel with frame Drawer

With frame drawers with snap lock, recessed grip, seal, running on sturdy telescopic over-extension runners. For GN 1/1 lengthwise, as well as side insertion of grids/slide-in trays. For keeping warm/low-temperature cooking with plug-in core temperature sensor (Cook&Hold), various programmes. Bottom runners for stacking on thermoport® models. Rated voltage 1N AC 230V 50Hz.

thermomat® made of stainless steel with self-closing door

One-hand closing/opening mechanism, 210° opening angle, stop DIN right (exchangeable). Inside GN support rail on both sides with anti-tilt device & push-through stop. 2 flush aluminium folding handles on the sides. Keep warm/low-temperature cooking, plug-in core temperature sensor, various programmes. Bottom runners for stacking on thermoport® models. Rated voltage 1N AC 230V 50Hz.

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with the CHECK HACCP system. App temperature measurement with Bluetooth-capable core temperature sensor. From goods receipt, production to output. Paper & complete HACCP in real time, visible everywhere in your dashboard.

acs Frontcooking Stations

Program Overview

acs 600 ec - for 1 varithek® Module with cross suction (ec) - with/without plasma technology

Mobile cooking station, with push & pull extraction from left to right (ec). Multi-stage filter system: grease/activated charcoal/pollutant, with removable grease drip tray. With splash guard, closed cabinet space, tightly welded adjustment niche, for varithek® modules: 400 direct & 1/1 via AST. 1x 230V / 1x 400V sockets.

+ With patented O3 plasma technology, the plasma generator not only neutralises odours but also kills bacteria and microorganisms

acs 1000 ec - for 2 varithek® modules with cross suction (ec) - with/without plasma technology

Mobile cooking station, with push & pull extraction from left to right (ec). Multi-stage filter system: grease/activated charcoal/pollutant, with removable grease drip tray. With splash guard, closed cabinet space, tightly welded adjustment niche, for varithek® modules: 400 direct & 1/1 via AST. 2x 230V & 2x 400V sockets.

+ With patented O3 plasma technology, the plasma generator not only neutralises odours but also kills bacteria and microorganisms

acs 1100 d3 - for 2 varithek® modules with 3-sided edge extraction (d3) - with/without plasma techn.

Mobile cooking station, with 3-sided edge extraction (d3). Multi-stage filter system: grease/activated charcoal/pollutant, with removable grease drip tray. With splash guard, closed cabinet space, tightly welded adjustment niche, for varithek® modules: 400 direct & 1/1 via AST. 2x 230V & 2x 400V sockets.

+ With patented O3 plasma technology, the plasma generator not only neutralises odours but also kills bacteria and microorganisms

servocuccina acs

Mobile cooking station, with circulating air extraction system. Multi-stage filter system: grease/activated charcoal/pollutant with removable grease drip tray. With splash guard, 1 drawer, deep-drawn side panels 200mm, built-in system support for 2x Varithek® modules 1/1. 4x 230V sockets. Rated voltage 3 N AC 400V 50Hz.

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with the CHECK HACCP system. App temperature measurement with Bluetooth-capable core temperature sensor. From goods receipt, production to output. Paper & complete HACCP in real time, visible everywhere in your dashboard.

Core temperature sensor - can be retrofitted at any time - order no. 94 01 01 05

acs 1500 d3- for 3 varithek® modules with 3-sided edge extraction (d3) - with/without plasma techn.

Mobile cooking station, with push & pull extraction from left to right (ec). Multi-stage filter system: grease/activated charcoal/pollutant, with removable grease drip tray. With splash guard, closed cabinet space, tightly welded adjustment niche, for varithek® modules: 400 direct & 1/1 via AST. 2x 230V & 2x 400V sockets.

+ With patented O3 plasma technology, the plasma generator not only neutralises odours but also kills bacteria and microorganisms

acs 1600 O3 - for 3 varithek® modules with 3-sided edge extraction (d3), plasmatech.& compartments

Mobile cooking station, with 3-stg edge extraction (d3) & 2 H3 function cabinet compartments in combi hot/cold/neutral. Multi-stage filter system: grease/activated charcoal/pollutant, removable grease drip tray. With sneeze & splash guard, tightly welded adjustment niche, for varithek® modules: 400 direct & 1/1 via AST.

+ With patented O3 plasma technology, the plasma generator not only neutralises odours but also kills bacteria and microorganisms

acs 600 ec - for 1 varithek® Module with cross suction (ec) - with/without plasma technology

Mobile cooking station, with push & pull extraction from left to right (ec).
Multi-stage filter system: grease/activated charcoal/pollutant, with removable grease drip tray. With splash guard, closed cabinet space, tightly welded adjustment niche, for varithek® modules: 400 direct & 1/1 via AST. 1x 230V / 1x 400V sockets.

varithek® Front cooking modules

Program Overview

varithek® GN 1/1 module with ceramic hob - for keeping warm

Module for keeping warm at the exact temperature, with infinitely variable & energy-saving ceramic hob (0-800W) with 9 programme levels, recessed for safe operation. Stainless steel housing, with transport-safe, retractable rotary switch. Exact insertion in AST / EST or in GN-port, usually with thermoplates® cooking pots. Splash-proof IPX4. Rated voltage 1N AC 230V 50/60Hz.

- + Energy-saving ceramic hob (0-800W) with 9 programme levels

varithek® GN 1/1 module with induction hob - for cooking

Module with electronically controllable induction ceramic hob (full-surface / round: Ø230mm surface / 2x square: 220x180mm each), controllable with selectable levels 0-9, recessed for safe operation. With ventilated high-performance induction generator. Exact insertion into AST/EST or GN-port, in use with thermoplates® cooking pots. Splash-proof IPX4. Rated voltage 1N AC 230V 50/60Hz.

- + Induction ceramic hob (full-surface / round: Ø230mm surface / 2x square: 220x180mm each), controll. w. select. levels 0-9. Ventilated high-performance induc. generator

SWISS|PLY

varithek® GN 1/1 module with SWISS-PLY multi-layer plate - for hot/cold holding

Module with full-surface, flush SWISS-PLY multi-layer material panel (280x490mm), retractable rotary control for steps 0-9, change cold-200W to warm-500W via 2-stage rocker switch. Cooling range: -7°C to +10°C, warm range: max. 120°C. Exact insertion into AST/EST or GN-port, in use with thermoplates® cooking pots. Rated voltage 1N AC 230V 50/60Hz.

- + SWISS-PLY multilayer panel (280x490mm), with steps 0-9, change from cold-200W to warm-500W via 2-stage rocker switch. Cooling range: -7°C to +10°C

SWISS|PLY

varithek® GN 1/1 module with SWISS-PLY multilayer plate - for grilling

Module with full-surface SWISS-PLY multi-layer material grill plate (280x480mm) for direct grilling, 8mm high edge & non-stick effect. Heat distribution evenly into the corners. Retractable electronically controlled power regulator up to 250°C. Grease drain & plug, drainable grease drip tray. Slide into AST/EST or GN port. Splash-proof IPX4. Rated voltage 1N AC 230V 50/60Hz.

- + SWISS-PLY multi-layer material grill plate (280x480mm) infinitely variable up to 250°C, for direct grilling, very fast & even heat distribution right into the corners

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with the CHECK HACCP system. App temperature measurement with Bluetooth-capable core temperature sensor. From goods receipt, production to output. Paper & complete HACCP in real time, visible everywhere in your dashboard.

Core temperature sensor - can be retrofitted at any time - order no. 94 01 01 05

varithek® 400 module with induction field - for cooking

Module with round induction ceramic hob, Ø250mm surface, electronically controllable via power regulator with 11 selectable levels. With ventilated microprocessor-controlled high-performance induction generator. For precise direct setting in acs-Frontcooking / as table-top unit on worktop. Splash-proof to IPX4.

- + **Round induction ceramic hob, Ø250mm surface, controllable with 11 selectable levels. With ventilated microprocessor-controlled high-performance induction generator**

varithek® 400 module with induction cuvette - for wokking

Module with round Ceran cuvette Ø300mm, for safe insertion of a round wok pan, for stepless wok with 11 power levels. With ventilated microprocessor-controlled high-performance induction generator. For precise direct setting in acs-Frontcooking / as table-top unit on worktop. Splash-proof to IPX4.

- + **Ceran cuvette Ø300mm, for round wok pan, stepless wok with 11 power levels. With ventilated microprocessor-controlled high-performance induction generator**

varithek® 400 module as pasta stove & deep fryer

Pasta fryer module, seamlessly welded GN basin 1/1, 200mm with SWISS-PLY multilayer base, powerful heating field underneath. Ventiladed, safety drain cock, integrated temperature sensor adjustable +/-1°C. In use with GN hook-in sets in each case. For direct placement in acs front cooking/as table-top unit on worktop. Splash-proof to IPX4. Rated voltage 3N AC 400 V 50/60 Hz.

- + **Hygienic seamlessly welded GN basin with SWISS-PLY multilayer base + Powerful heating field, adjustable +/-1°C**

SWISS|PLY

varithek® 400 module with SWISS-PLY multilayer panel - for grilling

Module with full-surface SWISS-PLY multi-layer grill plate, for direct grilling with non-stick effect. Heat distribution evenly into the corners. Infinitely variable up to 250°C. With grease drain & plug and drainable grease drip tray. For direct placement in acs front cooking/as table-top unit on worktop. Splash-proof. IPX4. Rated voltage 3N AC 400V 50/60Hz.

- + **SWISS-PLY multi-layer material grill plate infinitely variable up to 250°C, for direct grilling, very fast & even heat distribution right into the corners**

varithek® GN 1/1 module with ceramic hob - for keeping warm

Module for keeping warm at the exact temperature, with infinitely variable & energy-saving ceramic hob (0-800W) with 9 programme levels, recessed for safe operation. Stainless steel housing, with transport-safe, retractable rotary switch. Exact insertion in AST / EST or in GN-port, usually with thermoplates® cooking pots. Splash-proof IPX4. Rated voltage 1N AC 230V 50/60Hz.

ZUB, STW, Regio & Dispensing Wagon

Program Overview

delivery trolley - ZUB heated - with warming tubs

Stainless steel ladle trolley with deep-drawn, seamlessly welded-in GN 1/1 warming tray at the top, can be heated wet & dry (significant energy savings when dry), with drain tap, separately adjustable from +30°C to 110°C. Cover embodied on all sides, handle on front/longitudinal side, insulated on all sides, stainless steel shelf welded in at bottom with 4 butt corners, stainless steel castors. Rated voltage 1N AC 230V 50Hz.

Our GN basins can be heated wet & dry. Advantages of dry heating: energy saving, no calcification, better hygiene, faster cleaning & handling

delivery trolley - ZUB cooled - with cooling tubs

Stainless steel ladle trolley with deep-drawn, seamlessly welded-in GN 1/1 cooling trays at the top, cooling machine adjustable from +2°C to 10°C below. Cover embodied on all sides, safety push handle at front, insulated on all sides, with drain cock, welded-in stainless steel shelf with 4 butt corners at bottom, stainless steel castors. VT -10°C, rated voltage 1N AC 230V 50Hz.

delivery trolley - ZUB heated - with warming tubs for daycare & schools

Stainless steel ladle trolley, child-friendly working height of 750 mm, deep-drawn, seamlessly welded GN 1/1 warming tray at the top, can be heated wet & dry (significant energy savings when dry) with drain tap, separately adjustable +30 to 110 °C, insulated on all sides. Top incl. sneeze guard & light, cover cranked on all sides, handle on front side, 2x shelf on long side, closed cabinet space with 4 butt corners, rust-proof castors. Rated voltage 1N AC 230V 50 Hz.

Auto prog. function can be stored for a 100% guarantee of success. Usable w/o high volt. curr. (230V), structural measures, extractor hood, water connections, etc.

Food transport trolley - STW with cabinet compartment heated - without warming trays

Stainless steel serving trolley with smooth top cover and all-round gallery. Bottom 2 or 3 heated GN 1/1 compartments in H3 (IPX5), separately adjustable +30°C to 110°C, 14 deep-drawn bead pairs each. Doors double-walled insulated & self-closing, transport lock. Safety push handle at front, 2 fixed & 2 swivel castors with double stops. Rated voltage 1N AC 230V 50/60Hz.

Optimal operation for small children, at working height 750mm. Dry heatable for energy saving, no calcification, better hygiene, cleaning & handling

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with the CHECK HACCP system. App temperature measurement with Bluetooth-capable core temperature sensor. From goods receipt, production to output. Paper & complete HACCP in real time, visible everywhere in your dashboard.

Core temperature sensor - can be retrofitted at any time - order no. 94 01 01 05

Food transport trolley - STW with cabinet compartment 1xheated, 1xcooled & warming trays

Top 3 deep-drawn GN 1/1 warming trays wet & dry heatable. Bottom 1xheated & 1xcooled GN 1/1 cabinet compartment in H3 (IPX5). Hot: +30°C to 90°C, cold: +2°C to +10°C, 8 deep-drawn bead pairs each. Doors double-walled insulated, self-closing, transport lock. Safety push handle at front, 2 fixed & 2 swivel castors with double stops. Rated voltage 1N AC 230V 50/60Hz.

+ Our GN basins can be heated wet & dry. Advantages of dry heating: energy saving, no calcification, better hygiene, faster cleaning & handling

Regiostation with 2 large compartments in 230/400V

Various compartment combinations for keeping warm/cool & regenerating, bottom 2 compartments each max. 7x GN 1/1 65mm. Type 3 & 5 neutral drawer in the centre. Heat/light bridge, sneeze guard & 3-sided gallery, removable side controls. Cool: +2°C to +14°C. Regenerating: up to +170°C. Rated voltage 1N AC 230V 50Hz / 3N AC 400V 50Hz.

+ With intelligent electronic control, 7-day programming possible in accordance with meal plans, also for individual portions for diets

Regiostation with 1 large compartment or 2 small compartments in 230/400V

Various compartment combinations for keeping warm/cool & regenerating, bottom 1 compartment max. 7x GN 1/1 65mm or 2 small compartments. Heat/light bridge, sneeze guard & 3-sided gallery, removable side control (not with type 13). Cool: +2°C to +14°C. Regenerating: up to +170°C. Rated voltage 1N AC 230V 50Hz / 3N AC 400V 50Hz.

+ With intelligent electronic control, 7-day programming possible in accordance with meal plans, also for individual portions for diets

Serving trolley for breakfast & dinner stainless steel

Neutral trolley available closed with deep-drawn inner muffle (H3) of the compartments or in open version. Top with hygienic stainless steel cover, plastic castors, 4 bumper corners, 2 robust push handles. For transporting & serving breakfast and / or evening meal, can be used as an alternative to the tray system.

delivery trolley - ZUB heated - with warming tubs

Stainless steel ladle trolley with deep-drawn, seamlessly welded-in GN 1/1 warming tray at the top, can be heated wet & dry (significant energy savings when dry), with drain tap, separately adjustable from +30°C to 110°C. Cover embodied on all sides, handle on front/longitudinal side, insulated on all sides, stainless steel shelf welded in at bottom with 4 butt corners, stainless steel castors. Bain-Marie made of Stainless steel

Program Overview

Stainless steel bain-marie for serving - for keeping warm

Electrically heatable from +30°C to +90°C. Cover with retracted GN warming tray (for 1x 1/1) or welded-in GN warming tray (for 2x & 3x 1/1). For GN containers max. 1/1 200mm. With offset (only for 1x 1/1 without), with drain tap for each well. Covered on all sides, with switch panel, cable connection 2m. Rated voltage 1N AC 230V 50Hz.

Stainless steel bain-marie for installation in cover - for keeping warm

Electrically heatable with switch panel from +30°C to +110°C, heating underbuilt. Only wet-heatable, deep-drawn GN well for GN containers max. 1/1 200mm. Suitable for cut-out table top: 356x556, R50, -control box: 152x 85 in mm. Circumferential rim 30mm, fixing element, insulating cover & drainage tap 1/2". Rated voltage 1N AC 230V 50Hz.

Stainless steel bain-marie for welding into cover - for keeping warm

Electrically heatable with switch panel from +30°C to +110°C, heating underbuilt. Only wet-heatable, deep-drawn GN well for GN containers max. 1/1 200mm. Suitable for cut-out stainless steel cover: 312x514, R32 in mm. Circumferential rim 30mm, fixing element, insulating cover & drainage tap 1/2". Rated voltage 1N AC 230V 50Hz.

SWISS|PLY

Stainless steel bain-marie with SWISS-PLY multilayer bottom - for cooking & keeping warm

Electrically heatable up to max. +200°C. Can be heated wet & dry, considerable energy saving when dry. GN tray with SWISS-PLY multi-layer base for GN containers max. 1/1 200mm. Digital control & temperature display. With drain tap. Covered on all sides, with switch panel, cable connection 2m. Rated voltage 1N AC 230V 50/60Hz.

Our GN basins can be heated wet & dry. Advantages of dry heating: energy saving, no calcification, better hygiene, faster cleaning

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with the CHECK HACCP system. App temperature measurement with Bluetooth-capable core temperature sensor. From goods receipt, production to output. Paper & complete HACCP in real time, visible everywhere in your dashboard.

Core temperature sensor - can be retrofitted at any time - order no. 94 01 01 05

Stainless steel bain-marie for serving - for keeping warm

Electrically heatable from +30°C to +90°C. Cover with retracted GN warming tray (for 1x 1/1) or welded-in GN warming tray (for 2x & 3x 1/1). For GN containers max. 1/1 200mm. With offset (only for 1x 1/1 without), with drain tap for each well. Covered on all sides, with switch panel, cable connection 2m. Rated voltage 1N AC 230V 50Hz.

Tray transport trolley - TWF

Program Overview

Tray transport trolley - TWF for GN trays - neutral

Made of stainless steel, double-walled insulated GN cabinet compartments & doors. Robust 2-point locking, max. opening angle 270°. 2 continuous impact-protected round-tube push handles on each end. For inserting (lengthwise/crosswise) GN trays, deep-drawn tray support ledges & safety catches. Can be immersed for transport out of the house, lorry, electric tractor by means of coupling drawbar system.

Tray transport trolley - TWF for GN trays - passively cooled

Double-walled insulated GN cabinet compartments & doors, centrally 2 eccentric GN cooling plates & defrost water drain. 2-point locking, max. opening angle 270°. 2 full-length round-tube push handles at each end. Sliding in (lengthwise/crosswise) of GN trays, deep-drawn tray support ledges & safety catches. For transport outside, truck, electric tractor by means of coupling drawbar system.

Tray transport trolley - TWF for GN trays - actively cooled

Evaporator in the centre, refrigerator below incl. defrost water evaporator, double-walled GN cabinet compartments & doors. 2-point locking, max. opening angle 270°. 2 full-length round tube push handles on each end. For inserting (lengthwise/crosswise) GN trays, deep-drawn tray support ledges & safety catches. For transport outside, truck, electric tractor by means of coupling drawbar system.

Tray transport trolley - TWF for EN trays - neutral

Made of stainless steel, double-walled insulated EN cabinet compartments & doors. Robust 2-point locking, max. opening angle 270°. 2 continuous impact-protected round tube push handles on each end. For insertion (lengthwise/crosswise) of EN trays, deep-drawn tray support beads & locks. Convenient for transport out of the house, lorry, electric tractor by means of coupling drawbar system.

Digital HACCP documentation - safe & time-saving

Digital documentation with the CHECK HACCP system. App temperature measurement & Bluetooth-capable core temperature sensor. From goods receipt, production to output. Paper & complete HACCP, in real time, centrally viewable everywhere in your dashboard.

Core temperature sensor - can be retrofitted at any time - order no. 94 01 01 05

Tray transport trolley - TWF for EN trays - passively cooled

Double-walled insulated EN cabinet compartments & doors, centrally 2 eccentric GN cooling plates & defrost water drain. 2-point locking, max. opening angle 270°. 2 full-length round-tube push handles at each end. Sliding in (lengthwise/crosswise) of EN trays, deep-drawn tray support ledges & safety catches. For transport outside the house, lorry, electric tractor by means of coupling drawbar system.

Tray transport trolley - TWF for EN trays - actively cooled

Evaporator in the centre, refrigerator below incl. defrost water evaporator, double-walled EN cabinet compartments & doors. 2-point locking, max. opening angle 270°. 2 full-length round tube push handles on each end. For inserting (lengthwise/crosswise) EN trays, deep-drawn tray support beading & securing. For transport outside the house, lorry, electric tractor by means of coupling drawbar system.

Tray transport trolley - TWF for GN/EN trays - neutral

Made of stainless steel, double-walled insulated GN/EN cabinet compartments & doors. Robust 2-point locking, max. opening angle 270°. 2 continuous impact-protected round-tube push handles on each end. For inserting GN/EN trays crosswise, deep-drawn tray support ledges & safety catches. For transport outside the house, lorry, electric tractor by means of coupling drawbar system.

Tray transport trolley - TWF for GN/EN trays - passively cooled

Double-walled insulated EN/GN cabinet compartments & doors, centrally 2 eccentric GN cooling plates & defrost water drain. 2-point locking, max. opening angle 270°. 2 full-length round-tube push handles on each end. Crosswise insertion of EN/GN trays, deep-drawn tray support ledges & safety catches. For transport outside the house, lorry, electric tractor by means of coupling drawbar system.

Program Overview

Stainless steel tube dispenser unheated - for round dishes

Unheated roundware stacker, with 1 or 2 tubes \varnothing 397mm (max. load 75 kg), flexibly adjustable by 3 adjustment rods for roundware \varnothing 190-320mm, stacking height approx. 600mm. Dispensing height adjustable via springs. With platform, safety push handle, 4 bumper corners, rustproof castors (2 swivel & 2 swivel stop castors).

Stainless steel tube dispenser heated - for round/square dishes

Statically heated stacker for dishes: round/square, $+30^{\circ}\text{C}$ to $+110^{\circ}\text{C}$. With polycarbonate lid, double-walled insulated, with 1 / 2 tubes \varnothing 397mm (round dishes max. \varnothing 190-320 mm), flexibly adjustable by 3 adjustment rods, max. stacking height approx. 600mm. With platform, safety push handle, 4 bumper corners, stainless castors (2 swivel & 2 swivel stop castors). Rated voltage 1N AC 230 V 50 Hz.

Stainless steel tube dispenser convection heated - for round dishes

Circulating air heated roundware stacker, $+30^{\circ}\text{C}$ to $+110^{\circ}\text{C}$. With polycarbonate lid, double-walled insulation, with 1 / 2 tubes \varnothing 397mm, flexibly adjustable by 3 adjustment rods. For round dishes \varnothing 190-320mm, max. stacking height approx. 600mm. With platform, safety push handle, 4 bumper corners, stainless castors (2 swivel & 2 swivel stop castors). Rated voltage 1N AC 230 V 50 Hz.

Stainless steel tube dispenser unheated for installation - for square dishes

Statically heated tube \varnothing 397mm (max. load 75 kg), flexibly adjustable by 3 adjustment rods for round dishes \varnothing 190-320mm, stacking height approx. 600mm. Dispensing height adjustable via springs.

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with our CHECK HACCP system. Hygiene, cleaning & maintenance checklists via app, can be used anywhere. Paper & complete HACCP, can be viewed centrally in your dashboard in real time from anywhere.

Checklists QR code - can be retrofitted at any time - Order No. 94 01 01 14

Stainless steel tube dispenser heated for installation - for round dishes

Statically heated round utensil installation tube, tubes \varnothing 397mm, flexibly adjustable by 3 adjustment rods for round utensils \varnothing 190-320mm (max. load 75 kg). Dispensing height adjustable via springs. With polycarbonate lid, anti-tilt & anti-tilt platform, for an installation depth of 685mm. Rated voltage 1N AC 230 V 50 Hz.

Stainless steel exchange dispenser unheated - for universal dishes

Unheated universal harness stacker (max. load 150 or 200 kg) with grid platform (36 holes), tilt- and tilt-proof. Spring force adjustable according to harness weight, safety push handle, 4 bumper corners, stainless steel castors (2 swivel & 2 swivel stop castors).

Stainless steel interchangeable dispenser heated - for universal dishes

Statically heated universal dish stacker $+30^{\circ}\text{C}$ to $+110^{\circ}\text{C}$ (max. load 150 or 200 kg). With polycarbonate lid, double-walled insulation, with grid platform (36 holes). Spring force adjustable according to harness weight, 6 interchangeable bars, safety push handle, 4 bumper corners, stainless steel castors (2 swivel & 2 swivel stop castors). Rated voltage 1N AC 230 V 50 Hz.

Stainless steel interchangeable dispenser convection heated - for universal dishes

Circulating air heated universal dish stacker $+30^{\circ}\text{C}$ to $+110^{\circ}\text{C}$ (max. load 150 or 200 kg). Double-walled insulated, adjustable spring force, safety push handle, stainless steel castors (2 swivel & 2 swivel stop castors). Also available in shortened length for flush fitting in niches. Rated voltage 1N AC 230 V 50 Hz.

Dispenser

Program Overview

Platform dispenser open stainless steel unheated - for GN & EN trays & baskets

Suitable for baskets and trays (GN & EN, with dimensions 530x400 or 800mm), stacking height approx. 575mm. Platform guided tilt- & tilt-proof, max. load 200 kg. Spring force flexibly adjustable, with safety push handle, 4 bumper corners, stainless steel castors (2 swivel & 2 swivel stop castors).

Platform dispenser open stainless steel unheated - for baskets

Suitable for baskets (with dimension 500x500mm), stacking height approx. 575mm. Platform guided tilt- & tilt-proof, max. load 200 kg. Spring force flexibly adjustable, with safety push handle, 4 bumper corners, stainless steel castors (2 swivel & 2 swivel stop castors).

Platform dispenser open stainless steel heated - for installation - for baskets

Suitable for baskets, platform guided against tipping & tilting, spring force flexibly adjustable, with rectangular support frame, for an installation depth of 580 or 740mm.

Platform dispenser open stainless steel unheated - for installation for baskets & trays

Suitable for baskets and GN trays Platform guided tilt- & tilt-proof, spring force flexibly adjustable, with rectangular egg-bearing frame, for an installation depth of 580 or 740mm.

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with our CHECK HACCP system. Hygiene, cleaning & maintenance checklists via app, can be used anywhere. Paper & complete HACCP, can be viewed centrally in your dashboard in real time from anywhere.

Serving & Rack Trolley

Program Overview

Stainless steel serving trolley in light version

Made of round tube sliding brackets, with 2, 3 or 4 deep-drawn shelves with stop edge, sound-insulated (dimensions 800x500, 1000x500, 1000x600mm) unassembled/assembled. Max. Max. surface load 80kg per shelf. Clearance between shelves 585 or 275mm. Rustproof castors, bumper corners on each shelf, deflector castors, 2 swivel castors & 2 swivel stop castors. Flatpack 800x500mm also available with galvanised castors.

Stainless steel serving trolley in lightweight design - servostar® GN 1/1

Made of round tube sliding brackets, with 2 or 3 deep-drawn shelves (630x400mm) with stop edge, sound-insulated, unassembled/assembled. Max. Max. surface load 80 kg per shelf. Rustproof castors, bumper corners on each shelf, deflector castors, 2 swivel castors & 2 swivel stop castors. Can be visually customised with various glass shelves or functionally extended with a cutting board.

Stainless steel serving trolley in heavy execution - servo+

Sturdy round tube sliding frame with welded-in crossbars for roller fastening. With 2, 3 or 4 deep-drawn shelves with stop edge, sound-insulated (dimensions 1000x500, 1000x600mm), mounted. Max. Max. surface load 80kg per shelf. Clearance between shelves 585 or 275mm. Rustproof castors, bumper corners on each shelf, deflector castors, 2 swivel castors & 2 swivel stop castors.

Stainless steel rack trolley for Gastronorm

Various versions of shelf trolleys, suitable for GN sizes. High or low trolley, with bumper corners or deflector castors made of square tube frame, with U-shaped support rails with anti-tilt device and welded-in push-through stop on both sides. Total load capacity approx. 210 kg, each pair of supports approx. 25 kg.

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with our CHECK HACCP system. Hygiene, cleaning & maintenance checklists via app, can be used anywhere. Paper & complete HACCP, can be viewed centrally in your dashboard in real time from anywhere.

Checklists QR code - can be retrofitted at any time - Order No. 94 01 01 14

Stainless steel rack trolley for Euronorm

Various versions of shelf trolleys, suitable for EN sizes. With deflector castors made of square tube frame, with U-shaped support rails with anti-tilt device and welded-in push-through stop on both sides. Total load capacity approx. 210 kg, each pair of supports approx. 25 kg.

Stainless steel rack trolley for bakery standard

Various versions of shelf trolleys, suitable for bakery standard. With deflector rollers made of square tube frame, with L-shaped support rails, push-through stops on both sides. Total load capacity approx. 180kg, each pair of supports approx. 25kg.

Stainless steel serving trolley in light version

Made of round tube sliding brackets, with 2, 3 or 4 deep-drawn shelves with stop edge, sound-insulated (dimensions 800x500, 1000x500, 1000x600mm) unassembled/assembled. Max. Max. surface load 80kg per shelf. Clearance between shelves 585 or 275mm. Rustproof castors, bumper corners on each shelf, deflector castors, 2 swivel castors & 2 swivel stop castors. Flatpack 800x500mm also available with galvanised castors.

Refrigerators

Program Overview

multipolar® Community refrigerator with compartments

With 4 to 16 lockers, outer casing galvanised sheet steel, electrostatically powder-coated, in white, impact and shock-resistant / made of stainless steel. Inner bowl hygienic, fruit acid resistant polystyrene. Sturdy door hinges, all-round magnetic chamber seal, energy-saving & powerful refrigeration processor, low-noise & low-vibration. Energy consumption reduced by up to 16 times, significantly less cold loss due to opening of the individual compartments, the „refrigerator within the refrigerator“ saves electricity & money.

multipolar® Community refrigerator with drawers

With 8 to 10 drawers, outer casing galvanised sheet steel, electrostatically powder-coated, in white, impact and shock-resistant / made of stainless steel. Inner bowl hygienic, fruit acid resistant polystyrene. Sturdy door hinges, all-round magnetic chamber seal, energy-saving & powerful refrigeration processor, low-noise & low-vibration.

multipolar® CONNECT Digital community refrigerator with app based opening system.

With 10 digital lockers, hygienic & easy cleaning, compartments made of removable GN containers. Stainless steel outer casing. Inner bowl fruit acid resistant polystyrene. Sturdy door hinges, all-round magnetic chamber seal, door hinges left/right. Energy-saving & powerful cooling processor, low-noise & low-vibration. Energy consumption reduced by up to 16 times, significantly less cold loss due to opening of the individual compartments, the „refrigerator within the refrigerator“ saves electricity & money.

+ Simple digital opening system via the Rieber CONNECT app, 24/7 & contactless opening. Energy consumption reduced by up to 16 times, as only individual compartments

gastropolar® GN system Refrigerator with infinitely adjustable convection cooling

Energy-saving refrigeration compressor with low noise/vibration. Outer casing made of galvanised sheet steel, impact/shock-resistant powder-coated in white/stainless steel. Recessed inner chamber, floor drain incl. polystyrene sealing plug. Sturdy door hinges, all-round magnetic chamber seal. Climate class SN-ST (43°C KT).

Digital HACCP documentation - safe & time-saving

Digital documentation with the CHECK HACCP system. Automatic room temperature recording, via retrofittable sensor. Paper & complete HACCP & early warning of failure, viewable in real time from anywhere in your dashboard.

Automatic room temp. sensor - can be retrofitted any time - order no. 94020149

Polar & multipolar® freezer with static cooling

Outer casing galvanised sheet steel, impact/shock resistant powder-coated in white /made of stainless steel. Seamless inner chamber, white plastic with 7 evaporator plates & grid baskets. Lockable door, all-round magnetic chamber seal. Door hinge left/right. Climate class SN-ST.

TK multipolar® CONNECT Digital Deep Freezing Community Refrigerator with app opening system

With 10 digital lockers, hygienic & easy cleaning. Compartment shelves made of removable GN containers. White steel outer casing. Inner bowl plastic white. Sturdy door hinges, all-round magnetic chamber seal, door hinges left/right. Particularly energy-saving due to adapted compressors and refrigerant R290. Energy consumption reduced by up to 16 times, significantly less cold loss due to opening of the individual compartments, the „refrigerator within the refrigerator“ saves electricity & money.

+ Simple digital opening system via the Rieber CONNECT app, 24/7 & contactless opening. Energy consumption reduced by up to 16 times, as only individual compartments

multipolar® Community refrigerator with compartments

With 4 to 16 lockers, outer casing galvanised sheet steel, electrostatically powder-coated, in white, impact and shock-resistant / made of stainless steel. Inner bowl hygienic, fruit acid resistant polystyrene. Sturdy door hinges, all-round magnetic chamber seal, energy-saving & powerful refrigeration processor, low-noise & low-vibration. Energy consumption reduced by up to 16 times, significantly less cold loss due to opening of the individual compartments, the „refrigerator within the refrigerator“ saves electricity & money.

TK multipolar® CONNECT Digital Deep Freezing Community Refrigerator with app opening system

With 10 digital lockers, hygienic & easy cleaning. Compartment shelves made of removable GN containers. White steel outer casing. Inner bowl plastic white. Sturdy door hinges, all-round magnetic chamber seal, door hinges left/right. Particularly energy-saving due to adapted compressors and refrigerant R290. Energy consumption reduced by up to 16 times, significantly less cold loss due to opening of the individual compartments, the „refrigerator within the refrigerator“ saves electricity & money.

Commercial kitchen Sinks

Program Overview

waterstation® GN-professional - versions

Professional Gastronorm sink cover for use with GN containers/cutting boards for multifunctional & practical washing, rinsing, preparation. In different versions: right/left with a 1/1 and/or with a 2/1 basin and correspondingly left/right with drainer.

+ For precise use with GN containers and sieves, for multifunctional & practical washing, rinsing, preparation

Handwash sink Combinations versions

Sturdy & high-quality stainless steel washbasin, hygienically deep-drawn with large radii. Basin bottom with slope to the drain for complete emptying. With drain embossing 2" or 1 1/2". In wall/foot versions: with inspection panel, sensor fitting and single-lever mixer tap, with inspection panel and single-lever mixer tap.

Hand basin versions

Sturdy & high-quality stainless steel washbasin, hygienically deep-drawn with large radii. Basin bottom with slope to the drain for complete emptying. With drain embossing 1 1/2". In different versions: for welding in with sieve valve embossing 1 1/2" in the middle, with/without bracket, with/without panelling, with panelling & knee switch, with panelling & sensor switch.

Commercial kitchen sink versions - for welding in

Seamless deep-drawn basin with large radii. Bottom with slope to the outlet for complete emptying. Cylindrical/conical basin, silk matt or brushed inside, untreated outside. Valve embossing 1 1/2", 1 1/4" or 2", centre back, right/left/centre on short/long side, with/without overflow embossing. Approx. 20 mm wide rim all around the top for welding in.

Digital HACCP documentation - safe & time-saving

Digital HACCP documentation with our CHECK HACCP system. Hygiene, cleaning & maintenance checklists via app, can be used anywhere. Paper & complete HACCP, can be viewed centrally in your dashboard in real time from anywhere.

Checklists QR code - can be retrofitted at any time - Order No. 94 01 01 14

Sink with 1 basin

Seamless deep-drawn basin with large radii, bottom with slope to the outlet for complete emptying. Cover with all-round cranking, silk matt or brushed on the inside, untreated on the outside. Valve embossing 2".

Sink with 1 basin and 1 drainer

Seamless deep-drawn basin with large radii, bottom with slope to the outlet for complete emptying. Cover with all-round cranking, silk matt or brushed on the inside, untreated on the outside. Valve embossing 2". One draining surface on the side.

Sink with 2 basins

Seamless deep-drawn basin with large radii, bottom with slope to the outlet for complete emptying. Cover with all-round cranking, silk matt or brushed on the inside, untreated on the outside. Valve embossing 2".

Sink unit with 2 bowls & 1 or 2 Drainer(s)

Seamless deep-drawn basin with large radii, bottom with slope to the outlet for complete emptying. Cover with all-round cranking, silk matt or brushed on the inside, untreated on the outside. Valve embossing 2". One draining surface on the side.

waterstation® GN-professional - versions

Professional Gastronorm sink cover for use with GN containers/cutting boards for multifunctional & practical washing, rinsing, preparation. In different versions: right/left with a 1/1 and/or with a 2/1 basin and correspondingly left/right with drainer.
